

Distance/direction from Edmonton: 1990km NW

Population: 28,000

Modes of transportation to community: Motorcoach/Bus Via Rail Air

Community Served: 28,000

Regional Health Authority:

General Comments: Whitehorse General Hospital serves as a tertiary care facility for the entire Yukon Territory as well as northern areas of British Columbia and parts of Alaska. There is a large cultural diversity enriches the experience. As family physicians do virtually all of the acute care (supported by visiting specialists), there is opportunity to see and experience a very large scope of practice.
