RANKED IN THE WORLD’S TOP 100 UNIVERSITIES

AT THE UNIVERSITY OF ALBERTA, WE are EXPLORERS.

We believe that education is an adventure. We know that the pathway to achieving excellence goes beyond the classroom – it’s a journey of exploration.

Exploration is about doing research that inspires you, getting real-world job experience, building lifelong friendships in a new city, and trying new things in your day-to-day life.

UAlberta is the place to take your journey to excellence.
CANADA has exciting cities and breathtaking natural beauty that will appeal to your adventurous side. The people are as interesting as the landscape - Canadians come from all over the world and celebrate multiculturalism by sharing their traditions and welcoming the traditions of others.

ALBERTA is the perfect place to unleash your inner explorer. Located in Western Canada, the province of Alberta is a great place to study, work, and live. Many major companies and industries call Alberta their home, which means that there are great job opportunities and resources to build your future career.

EDMONTON is a creative city where ideas and innovation come to life. It’s also the perfect place to study. You will get a great education in a modern city environment, and when you need a chance to relax and enjoy nature... just head down to the beautiful river valley, which winds through the heart of the city!

"I think the best way to adapt is to get to know the locals who are actually from Edmonton. They know the best places to hang out, and help you to adjust."
