ON THE FRONT COVER

THE UNIVERSITY COAT OF ARMS

In June 1994, His Excellency the Right Honourable Ramon John Hnatyshyn, Governor General of Canada, presented the University of Alberta with its Coat of Arms. The full Coat of Arms is displayed at ceremonial occasions such as Convocation, and is used by the Chancellor, the titular head of the University.

On the shield is a representation of the topography of Alberta rendered in the colours of the University. At the base is a prairie wheat field symbolizing Alberta's agricultural industry. The wavy gold line above suggests the hills and rivers of Alberta and, in particular, the setting of the University campus. The top of the shield is in gold and separated from the rest of the shield by a line suggesting the Rocky Mountains. The book of learning dominates the design.

On the crest is a Grand-Duc d'Amérique, or Great Horned Owl, the provincial bird and an accepted symbol of knowledge. The pronghorn, taken from the Provincial Coat of Arms, and the golden bear, mascot of the University, support the shield. Both wear collars of the University colours, as does the owl. At the base of the Coat of Arms is a grassy mound with wild roses, the floral emblem of Alberta with the University's motto: *Quaecumque Vera* (Whatsoever things are true).

The list of candidates for degrees, diplomas, and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information presented is current as of the program printing deadline.

QUAECUMQUE VERA

WHATSOEVER THINGS ARE TRUE

The University of Alberta, its buildings, labs, and research stations are primarily located on the traditional territory of Cree, Blackfoot, Métis, Nakota Sioux, Iroquois, Dene, and Ojibway/Saulteaux/Anishinaabe nations; lands that are now known as part of Treaties 6, 7, and 8 and homeland of the Métis. The University of Alberta respects the sovereignty, lands, histories, languages, knowledge systems, and cultures of First Nations, Métis and Inuit nations.

GREETINGS TO THE GRADUATES

To the unstoppable class of 2025,
Today, we don't just mark an ending; we celebrate a spectacular new beginning – yours. This convocation is a testament to your tenacity, a direct result of countless late nights, early mornings and the sheer grit you've shown juggling deadlines and exceeding expectations. My sincerest hope is that your journey at the University of Alberta has been transformative, forging you into sharper thinkers, more compassionate individuals and professionals ready to lead. You've learned from the best – a community of globally acclaimed professors, insightful instructors and dedicated staff who have poured their expertise into your growth.

To our graduates: this moment is yours. You've wrestled with challenges, embraced new knowledge and emerged not just with degrees, but with the power to shape a brighter tomorrow. The values nurtured here – kindness, empathy, fierce hope and a strong sense of personal responsibility – are now part of your toolkit.

In a world hungry for change, your courage, fueled by the world-class education you've earned, is a formidable force. Go forth from this place not just to do well, but to do good. Lead with passion, act with wisdom and never lose the conviction that you will build a better world.

Congratulations!

NIZAR JAFFER SOMJI

Chancellor

Congratulations to the class of 2025!

Today, we gather as a community to celebrate your successful completion of years of hard work, determination and dedication.

You gained knowledge, developed new skills and grew as individuals during your journey. I hope you will look back on your time at the University of Alberta with pride in all you have accomplished.

You are now part of a worldwide network of over 340,000 University of Alberta graduates, and like them, you can advance social, cultural and economic change. Possibilities stretch before you. I encourage you to lead with purpose as you contribute to your professions, families and communities. The world needs more visionary leaders and global citizens who can make the world healthier, stronger, safer and more just. Be bold in your pursuit of making a positive impact here in Alberta and beyond.

The University of Alberta was founded in 1908 on the promise of "uplifting the whole people." We are tremendously proud of you and look forward to seeing how you fulfill that noble promise.

BILL FLANAGAN

President and Vice-Chancellor

On behalf of the Government of Alberta, I am honoured to send greetings to the University of Alberta class of 2025.

In a 1941 speech at Harrow School, Winston Churchill said, "This is the lesson: never give in, never give in, never, never, never, never—in nothing, great or small, large or petty—never give in except to convictions of honour and good sense." Each generation is defined by the challenges it overcomes and the optimism with which it forges ahead. In the complex times in which we live, it would be easy to become disheartened. Through the very act of planning and preparing for your future, each of you has opted for hope—in a brighter tomorrow for yourselves and others. You have declared that you will not give in, and you should be very proud of what you achieved.

There are so many reasons to be excited about what lies ahead. Your resilience—and the knowledge and skills you have acquired during your time at the University of Alberta—will serve you well as you embark on your chosen path. You have already achieved something remarkable through your hard work, determination, creativity and passion, and I know you will play an important role in your communities, here in our province or elsewhere.

Please accept my heartfelt congratulations as you celebrate with those closest to you.

Best wishes,

HONOURABLE DANIELLE SMITH

Premier of Alberta

OUR TRADITIONS

THE UNIVERSITY CEREMONIAL CHAIRS

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded-leather back and seat. Above the padded-leather back is carved the University motto *Quaecumque Vera* together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

In 2006, a fourth chair was donated in memory and honour of Lois Elsa Hole, beloved Chancellor (1998 – 2000) and Lieutenant Governor (2000 – 2005), by Earl Evaniew, Sandra Kereliuk, and their daughter Jennifer. This chair becomes part of the seating arrangements on stage when the Lieutenant Governor or other high profile dignitaries attend the Convocation ceremonies.

THE UNIVERSITY MACE

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr. Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. It was presented by his son, Michael Galbraith, on behalf of his father on May 26, 1970.

Among its elements are: the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto encircles the staff.

The ceremonial stand for the Mace was donated in 1987 as a memorial gift by family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors, from 1950 to 1966.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power — but the power of knowledge and the importance of the University in the community.

THE UNIVERSITY FLAG

The University flag has a gold background and bears the shield of the Coat of Arms.

THE CHEER SONG

*Ring out a cheer for our Alberta
A song of praise to Varsity.
For the splendour of our mountains
Our prairies green and gold.
Ranked beneath whose
glowing colours,
Thy legions march enrolled.
Our memories will live forever
Beloved University.
We will fight for thee and cheer
And ever hold thine honour dear.
Our Alma Mater U of A.
Green and gold! Quaecumque Vera!
Guide us through each coming era,
Guide us on through battle gory
To a new and greater glory.*

CONVOCATION SPEAKER

DR. BRIAN WILDCAT

Introduced by Dr. John Parkins, Dean, Augustana

Dr. Brian Wildcat, a member of the Ermineskin Cree Nation, has worked to improve Indigenous education in Maskwacis, Alberta, for the last 30 years. Brian's leadership was instrumental in the creation of Maskwacis Education Schools Commission (MESC), which was launched in 2018, taking responsibility for 11 schools, 2,200 students and 500 employees. Other highlights of his career include negotiating the transfer of Ermineskin Schools to local control in 1991, and serving as Superintendent of Miyo Wahkohtowin Education (Ermineskin Schools) for 20 years and of MESC for four years.

Brian attended Camrose Lutheran College and received a Bachelor of Physical Education in Outdoor Pursuits from the University of Calgary in 1987. He completed his Master of Education in Educational Administration in 1995 at the U of A.

Brian was recognized with an Eagle Feather Headdress from Ermineskin Cree Nation in 1991 and an Honorary Doctor of Laws from the U of A in 2022. He also received Augustana's 2018 Distinguished Alumni Award and the U of A's 2019 Alumni Award of Excellence.

TUESDAY, JUNE 10
AFTERNOON CEREMONY, 3 P.M.

CONVOCATION SPEAKER

DR. PATRICK PILARSKI

Introduced by Dr. Declan Ali, Dean, Faculty of Science

Dr. Patrick M. Pilarski is a Canadian Institute of Advanced Research (CIFAR) Artificial Intelligence Chair, past Canada Research Chair in Machine Intelligence for Rehabilitation, a Fellow of Amii (the Alberta Machine Intelligence Institute) and a Professor in the Department of Medicine at the University of Alberta.

For more than 20 years, his research has explored the boundaries between biology and technology and the interactions between human and machine minds. He co-leads an interdisciplinary laboratory focused on creating intelligent artificial limbs to restore and extend abilities for people with amputations. He has also advanced rapid cancer and pathogen screening through his earlier work on biomedical image analysis and hand-held diagnostic devices.

He currently serves as a director on Amii's board and the board of Silvacom Holdings Corp., and he is an AI Advisor on the Investment Committee of the UA Innovation Fund. He previously founded a startup company, actively engages in consulting, has created multiple arts organizations, and has experience steering councils and advisory boards of regional and national creative arts organizations.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FACULTY OF SCIENCE

WEDNESDAY, JUNE 11
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

DR. KENRICK LEWIS

Doctor of Science

Presented by Dr. Declan Ali, Dean, Faculty of Science

Convocation Speaker: June 11, 3 p.m.

Introduced by Dr. Declan Ali, Dean, Faculty of Science

Kenrick Lewis' journey into the world of chemistry research began when he was an undergraduate student at the U of A, where he obtained a BSc before going on to earn his PhD from the University of Massachusetts Amherst. In the decades since, he's become one of the leading chemists of his generation.

Lewis has spent his career forging ties between academia and industry, making significant contributions to understanding the synthesis and performance of silanes and silicones, his areas of expertise. Currently a distinguished corporate research fellow at Momentive Performance Materials Inc., Lewis is an undisputed leader and innovator in the silicones industry with a long list of patents and academic publications to his name.

Silicones are found in everything from glues and sealants to automotive parts and electrical insulation. Given the wide range of applications for silicone products, chances are you've used something in the last 24 hours that was derived from Lewis' advancements in chemistry. Several

of his discoveries have led to a more efficient, economical and ecologically friendly manufacturing process for silanes.

Lewis, who was born in Gouyave, Grenada, has always championed the opportunities that education provides, making it his mission to help other talented students achieve their own dreams. Between 1991 and 2012, he funded a scholarship at his former primary school in Grenada that provides the top student with financial support for five years of secondary education. He has also mentored high school students in Tarrytown, thereby supporting the next generation of scientific innovators.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Kenrick Lewis:

Burton L. Hawk. *The Chemistry We Use*. Washington: Science Service, 1953.

This charming chemistry textbook was issued as part of the Science Service Chemistry Series edited by Helen Miles Davis and published between 1949 and 1957. The stated purpose of this volume is to meaningfully demonstrate the vital importance of chemistry in daily life and to inspire future scientists by offering students a series of experiments that can be carried out at school or at home. By following the clear instructions provided, each student can learn "how, with a modest outlay of money for real equipment, he can perform real experiments, make his own chemicals, do the actual work that chemists do in the real world," all while cultivating good, safe laboratory practices. It is rare to find this type of book in such good condition, and this one will make an excellent addition to the science collections housed in the Peel library.

Honour with purpose: Do you know of someone extraordinary?
Nominate them for a U of A Honorary Degree today! uab.ca/hdnoms

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

CONGRATULATIONS GRADUATES

WEDNESDAY, JUNE 11, AFTERNOON CEREMONY, 3 P.M.

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FACULTY OF SCIENCE

THURSDAY, JUNE 12
MORNING CEREMONY, 10 A.M

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

MS. PEGGY GARRITTY

Doctor of Laws

Presented by Bill Flanagan, President and Vice-Chancellor and Carolyn Campbell, President and CEO of NorQuest College

Convocation Speaker: June 12, 3 p.m.

Introduced by Bill Flanagan, President and Vice-Chancellor

Peggy Garritty has made significant contributions to education, culture and community development in Alberta and beyond through her compassionate leadership and dedication to social responsibility. A two-time U of A graduate, she returned to her alma mater to serve as chancellor from 2020 to 2024, distinguishing herself as a champion of student engagement and an advocate for enhancing Indigenous representation during convocation. As chair of the University Senate, she helped strengthen the university's reputation amid the challenges of the COVID-19 pandemic. Among her accomplishments, she created the award-winning podcast, Bridging Connections, she authored a paper on the university's role in social innovation, and she continued the Chancellor's Forum series, which raised the conversation about how the university can more meaningfully engage with and bring capacity to complex community issues such as houselessness, food security and the human impacts of artificial intelligence.

Her professional leadership as vice-president and chief reputation and brand officer at ATB Financial transformed ATB's brand in the marketplace and elevated the organization's corporate social responsibility, including creating a corporate giving platform and supporting vulnerable communities. As a communications advisor to the Alberta government, she contributed to a number of influential policy initiatives in finance, education and health.

A tireless community builder as both an independent business owner and a volunteer, she is a member of the Institute of Corporate Directors and serves on the boards of the Art Gallery of Alberta, the University Hospital Foundation, Edmonton Screen and Alberta Ballet. She previously served as chair of the board for the Winspear Centre and Edmonton Symphony Orchestra and on the board for the Alberta Mental Health Foundation. Her mentorship, advocacy and commitment to leading with purpose have been recognized with honours including the Queen's Diamond and Platinum Jubilee Medals.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Peggy Garritty:

Barbara Hodgson and Claudia Cohen. *The WunderCabinet*. Vancouver: Heavenly Monkey Editions, 2011.

Handmade by book artists Barbara Hodgson and Claudia Cohen, this deluxe limited first edition is a fully-stocked specimen cabinet decorated with gorgeous wood veneers laid in geometric patterns and housing a unique assortment of objects in a series of compartments along with a leather-bound book which contains even more wonders. Inspired by the Renaissance idea of a cabinet of curiosities, in which large collections of rare and exotic objects were housed in a room or in a piece of furniture, this contemporary cabinet of curiosities contains an astonishing array of treasures, including fossilized shark teeth, a magic lantern slide, a silkworm cocoon, a bone spindle, glass eyeballs, and a Tasmanian tree fern. A gorgeously-imagined moveable museum from two very talented book artists who worked in collaboration with one of Canada's most respected private presses, this is a special addition to the important collection of artists' books housed in the Peel library.

Honour with purpose: Do you know of someone extraordinary?
Nominate them for a U of A Honorary Degree today! uab.ca/hdnoms

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FRIDAY, JUNE 13
MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENT

CONGRATULATIONS

DR. MICHEL SADELAIN

Doctor of Science

Presented by Dr. Brenda Hemmelgarn, College Dean & Vice Provost, College of Health Sciences, and Dean, Faculty of Medicine & Dentistry

Michel Sadelain earned his PhD at the University of Alberta under famed immunologist Thomas Wegmann more than three decades ago, when the idea of using a cancer patient's own immune system to fight the disease was still a largely unproven dream.

Thanks in part to Sadelain's vision of that potential, followed by years of scientific inquiry, immunotherapy is now a standard part of the care that offers hope to millions.

Originally from France, he did postdoctoral work at the Massachusetts Institute of Technology and then joined the Memorial Sloan Kettering Cancer Center, where he developed chimeric antigen receptor CAR-T cell immunotherapy. He recently joined Columbia University to direct the Columbia Initiative in Cell Therapy and Engineering to further advance CAR therapies for cancer and other diseases.

The process involves collecting blood from a patient and separating out the T cells, which are part of the immune defence system. The cells are genetically engineered to produce synthetic proteins on their surfaces that, when the engineered cells are infused back into the bloodstream, latch onto

the patient's cancer cells, directing those T cells to kill tumours. The T cells expand in the body of the recipient and only require a single infusion to do their work.

Sadelain published his first paper on T cell engineering in 1992. He helped lead the first clinical trials using CAR-T cells, as did American researcher Carl June, and the first CAR-T cell therapies were approved for use in patients with various refractory blood cancers in 2017.

Sadelain holds 79 patents and has been recognized with major health sciences prizes, including both the Breakthrough Prize in Life Sciences and the Canada Gairdner International Award in 2024.

Sadelain returns to Edmonton often to visit family. He also advises on the work of U of A oncology professor Michael Chu, who is leading a project to manufacture and test locally produced CAR-T cells. He continues to push the boundaries of immunotherapy looking for strategies to overcome tumour resistance and to broaden the use of CAR-T treatment for cancer and other diseases.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Michael Sadelain.

Yousuf Karsh. *Healers of Our Age: Photography and Commentary*. Boston: Oliver Wendell Holmes Endowment of the Francis A. Countway Library, 1976.

Acclaimed for his extraordinary talent as a portrait photographer, Yousuf Karsh (1908–2002) has taken some of the most iconic photographs of the twentieth century. His lifelong admiration for “those men and women who are devoted to the art and the science of healing” (6) inspired this collection of 12 gelatin silver prints. It features portraits of prominent scientists, physicians, and healers, with Albert Einstein (1879–1955) and Carl Jung (1875–1961) being two notable examples. Numbered 106 of only 590 copies, this signed and limited first edition contains an eight-page unstitched booklet and loose photographs, all presented in a folio-sized clamshell box. This copy features an inscription signed by Karsh in 1980 to Catherine G. Curran (1926–2007), an inscription that illuminates its interesting provenance as it once belonged to a prominent New York philanthropist and patron of the arts.

Honour with purpose: Do you know of someone extraordinary?
Nominate them for a U of A Honorary Degree today! uab.ca/hdnoms

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

CONVOCATION SPEAKER

DR. JANA RIEGER

Introduced by Dr. Esther Kim, Interim Dean, Faculty of Rehabilitation Medicine

Dr. Jana Rieger is an entrepreneur, researcher and educator whose career exemplifies the transformative power of bridging academic research with real-world innovation. With over two decades of experience at the University of Alberta, Dr. Rieger seamlessly navigated multiple roles as a clinician, researcher, professor and director of research, consistently demonstrating her commitment to improving healthcare outcomes through technology.

As co-founder and CEO of True Angle, a company that emerged from the U of A in 2017, Dr. Rieger has led the development of wearable technologies that empower individuals to take control of their health. Her company's flagship products include Breth, a wearable device that reduces stress through guided breathwork practices, and Mobili-T, an innovative solution for individuals managing dysphagia.

True Angle was named Edmonton Startup of the Year by the National Angel Capital Organization in 2021, and Dr. Rieger received the 2024 Woman in Tech Award from Start Alberta.

Dr. Rieger is also an accomplished fiction writer, having published her novel, *A Course in Deception*, in 2017, demonstrating her creative versatility and intellectual breadth.

MONDAY, JUNE 16

AFTERNOON CEREMONY, 3 P.M.

CONVOCATION SPEAKER

DR. CARLA PRADO

Introduced by Dr. Rickey Yada, Dean, Faculty of Agricultural, Life & Environmental Sciences

Dr. Carla Prado is a Distinguished University Professor and Tier 1 Canada Research Chair in Integrative Nutrition, Body Composition, and Energy Metabolism at the University of Alberta. She is a leading expert in clinical nutrition, particularly for her work on muscle loss in chronic diseases like cancer and the role of nutrition in preventing and treating this condition.

Dr. Prado has published over 320 peer-reviewed articles and several book chapters, and has earned some of Canada's highest academic honours. She is a Fellow of the Canadian Academy of Health Sciences and a member of the Royal Society of Canada College of New Scholars, Artists, and Scientists. She was also named a Highly Cited Researcher by Clarivate, placing her among the top one per cent of scientists globally for research impact.

Dr. Prado is committed to translating scientific knowledge to improve patient care. The free cookbook she published with her students, *The High Protein Cookbook for Muscle Health During Cancer Treatment*, received an international award and has been translated into Portuguese, Spanish, French, Romanian and Arabic.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

FACULTY OF ENGINEERING

*Presented by Dr. Peter Schiavone, Associate Dean, Engineering/
Dr. Cagri Ayranci, Associate Dean, Graduate and Postdoctoral Studies*

CONVOCATION SPEAKER

DR. HASAN ULUDAĞ

Introduced by Dr. Donald Raboud, Associate Dean, Faculty of Engineering

Dr. Hasan Uludağ is a Distinguished Professor in the Department of Chemical and Materials Engineering at the University of Alberta with an honorary appointment in the Faculty of Pharmacy and Pharmaceutical Sciences.

Dr. Uludağ obtained dual BSc degrees in Biomedical Engineering and Biology from Brown University in 1989. He completed his PhD in 1993 in the Department of Chemical Engineering & Applied Chemistry at the University of Toronto, where he developed a strong expertise in polymeric biomaterials.

Since 1997, he has managed an interdisciplinary research program on experimental therapeutics. His research activity is now focused on novel anti-cancer therapies.

He has published over 240 peer-reviewed journal articles and served as lead editor for *Frontiers in Biomaterials*. He is an elected Fellow of the International Union of Society of Biomaterials Science and Engineering. Dr. Uludağ was honoured with the Lifetime Achievement Award by the Canadian Biomaterials Society and an Innovation Award by BioAlberta, and he has initiated two spinoff companies from the U of A based on technologies emanating from his labs.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

AFTERNOON CEREMONY, 3 P.M.

CONVOCATION SPEAKER

DR. TIAN TANG

Introduced by Dr. Donald Raboud, Associate Dean, Faculty of Engineering

Dr. Tian Tang is a Professor and Tier 1 Canada Research Chair in the Department of Mechanical Engineering at the University of Alberta. She received her bachelor's degree from Tsinghua University in 2001 and PhD from Cornell University in 2005. She joined the U of A in 2007, and was recently elected as a Fellow of the Canadian Academy of Engineering.

Dr. Tang combines a passion for teaching with her internationally recognized research in multi-scale modelling and simulation of soft materials and interfaces. Her group creates novel approaches to reveal molecular-level "secrets" of functional materials.

Dr. Tang has served as Associate Chair Research for Mechanical Engineering and Acting Associate Dean Programs and Planning for the Faculty of Engineering. From 2017 to 2023, she was the Academic Co-Chair for WISEST (Women in Scholarship, Engineering, Science and Technology).

Dr. Tang is a recipient of the Martha Cook Piper Research Prize, Rutherford Award for Excellence in Undergraduate Teaching, Killam Annual Professorship and University Cup.

CONVOCATION SPEAKER

DR. JEROME CRANSTON

Introduced by Dr. Jennifer Tupper, Dean, Faculty of Education

Jerome Cranston (he/him) is the Vice-Provost, Students and Learning at the University of Saskatchewan. He holds a PhD from the University of Manitoba, an MEd from the University of Lethbridge, along with degrees from the University of Alberta. A race-conscious scholar-educator, Dr. Cranston focuses on racial inequality and injustice, aiming for greater equity and healthier communities.

His work includes supporting displaced Syrians in Lebanon and Bhutanese refugees in Nepal, collaborating with Indigenous communities in Canada and serving as an Academic Observer for the UN Permanent Forum on Indigenous Issues. In recognition of his contributions, he has received awards from the American Educational Research Association and the U of A for his work in anti-racism and equity.

Dr. Cranston is the author of five books and over 50 publications, and has secured more than \$350,000 in research grants, contributing to various committees and initiatives on equity and social justice.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

DIPLOME D'ÉDUCATION À LA PETITE ENFANCE - SUPERVISEUR

Lodoum Emilienne Denebeye

WEDNESDAY, JUNE 18
AFTERNOON CEREMONY, 3 P.M.

CONVOCATION SPEAKER

DR. GUILLERMO HERNANDEZ RAMIREZ

Introduced by Dr. Jennifer Tupper, Dean, Faculty of Education

Dr. Guillermo Hernandez Ramirez's background fuses Indigenous heritage with Spanish and African ancestries. As a child, he lived in a rural village in Central America without electricity or running water, which shaped his beliefs about co-operation, resourcefulness and solidarity.

He earned his BSc from EARTH University in Costa Rica and his PhD from Purdue University. Before joining the University of Alberta 12 years ago, he worked as a scientist in New Zealand, a professor in Panama, a research fellow in Germany and a postdoctoral researcher in Iowa.

At the U of A, he is an academic adviser for the campus-wide Certificate in Sustainability and a course instructor in the Faculty of Agricultural, Life & Environmental Sciences. His teaching has been recognized by the North American Colleges and Teachers of Agriculture and by the Rutherford Award for Excellence in Teaching.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

MORNING CEREMONY, 10 A.M.

HONORARY DEGREE RECIPIENTS

CONGRATULATIONS

MR. RADHE AND MRS. KRISHNA GUPTA

Doctor of Laws

Introduced by Dr. Vikas Mehrotra, Dean, Alberta School of Business

From India, Radhe and Krishna Gupta have become leaders in Canadian real estate and are among Alberta's most dedicated philanthropists.

Radhe began his career as an engineer in Toronto, spending time in the oilsands and Libyan oilfields. During their time in Libya, Radhe and Krishna established Rohit Group in 1986 and entered the construction business full-time in 1990, when they moved back to Edmonton. Launched from their home office, the business has grown from a small homebuilder to a national real estate company that now includes retail, office, land development, residential rentals, homebuilding and health infrastructure development. They have built thousands of homes across Alberta, British Columbia and Saskatchewan, and are currently expanding into the Greater Ottawa market. Rohit Group is well-known for its innovation, creativity and commitment to high standards in business.

Giving back to the local community has always been a cornerstone of Radhe and Krishna's values. They established an annual fundraiser called Baskets of Hope for WIN House, and have been major donors to Habitat for Humanity, the City of St. Albert, the City of Edmonton, Newcomer Centre, Mental Health Foundation, Little Warriors, Stollery Children's Hospital, and NorQuest

College. Their community leadership also extends into their business as Rohit Group partnered with the City of Edmonton on the First Place Program to deliver affordable housing for first-time homebuyers. Beyond their local community, they have also built a hospital, a cemetery and a school in Radhe's hometown of Jaura, India.

Most recently, they established the Radhe Krishna Gupta Executive Chair in Cities and Communities — Canada's first interdisciplinary program of its kind.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr. Radhe and Mrs. Krishna Gupta:

Charles Dickens and Gad's Hill Place: Correspondence between Charles Dickens, the Rev. Joseph Hindle, and W.H. Wills, 1856–1857, with Introductory Essay by F.J. Harvey Darton, and Original Drawings by Alicia Darrington.

This extraordinary collection of unpublished autograph letters documents Charles Dickens' (1812–1870) purchase of Gad's Hill Place, his cherished dream home and the residence where he spent his final 14 years. The collection features a letter signed by Dickens, seven letters from his agent William Henry Wills (1810–1880), and four letters from the tenant Joseph Hindle (1794–1874), each window-mounted and presented with a corresponding typescript. The collection also includes a frontispiece watercolour portrait of Dickens and four pen-and-ink drawings of the house by Alicia Darrington, a calligraphic title page, and an introductory essay by F.J. Harvey Darton (1878–1936). In his introduction, Darton explains that Dickens' acquisition of Gad's Hill Place fulfilled a childhood dream: "Charles Dickens had a singular knack of making his dreams come true, as well as of translating his experience into fiction. In a well-known passage in *The Uncommercial Traveller* he tells how he saw in his boyhood, and coveted, the house in which, as things turned out, he actually was to spend some of the most crowded years of his life, at the height of his reputation" (1). Bound in full red morocco by the renowned English bookbinders Sangorski & Sutcliffe, this volume presents an attractive binding featuring gilt work on the spine and borders, Dickens' gilt lion emblem and initials on the front cover, and his gilt signature on the rear. The bookplate of W.A. Foyle (William Alfred Westropp Foyle, 1885–1963) inside the front cover signifies the previous ownership of this volume by the co-founder of Foyles, the renowned twentieth-century bookshop that was first located in Cecil Court, close to Leicester Square, London, after its establishment in 1903 with his brother Gilbert.

AFTERNOON CEREMONY, 3 P.M.

CONVOCATION SPEAKER

MR. MUSTAFA FAROOQ

Introduced by Dr. Fiona Kelly, Dean, Faculty of Law

Mustafa Farooq is a lawyer, holding a Juris Doctor from the University of Alberta and Osgoode Hall at York University, and a Master of Laws (LLM) from UC Berkeley. He is the past CEO of the National Council of Canadian Muslims, where he was a prominent voice against Islamophobia and advocated for civil liberties.

Farooq champions a "Politics of Love," emphasizing empathy and connection to counter hate. His diverse career includes experience at Google Canada and as a senior government political staffer. Currently, he is engaged in private practice consulting and he is a Broadbent Leadership Fellow. His experiences have shaped his approach to community building and social justice.

CONGRATULATIONS GRADUATES

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. ACADEMIC DRESS

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point.

Hoods are made in the Oxford pattern of spruce green material. The bachelor's hood has a border three inches wide of the colour distinctive of the faculty as noted below. The masters' hood has a full lining of the colour distinctive of the faculty also noted below. Mortarboards are the standard black trencher shape with green and gold tassels, which are worn forward and to the left.

DOCTORATE DEGREES

'Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctors' hoods conform to the Intercollegiate Code in shape, size, and colour. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with green and gold tassels, which are worn forward and to the left.

JE TE RETROUVE – I REMEMBER YOU

Music and lyrics by France Levasseur-Ouimet, PhD. Translation by France Levasseur-Ouimet and Laurier Fagnan.

Bilingual version as it is actually sung (follow bold text). Regular text is translation of what is being sung.

FRENCH

1st verse and refrain, bridge and last refrain

1ST VERSE

Quand je pense à d'où je viens
À cette route qui m'a conduit à qui je suis
Quand je pense aux jours passés
Ton nom me vient comme un refrain
Que j'aime chanter
Quand je pense à tous ces gens
Qui ont laissé un coin d'ciel bleu au
Fond de moi

REFRAIN

Je te retrouve, je te retrouve
Tu es les rêves que j'invente
Tu es la musique que je chante
Tu es la force qui me soutient
Je te retrouve, je te retrouve
Tu es les mots que je compose
Tu es les gestes que je pose
Tu es la route qui m'a conduit
D'hier à demain,
D'hier à demain

2ND VERSE

Quand je retourne chez moi
Par habitude je refais tous les mêmes pas
Quand je marche dans les rues
J'entends des voix qui font écho au fond de moi
Quand je pense à cette langue
Qui me raconte, qui me récite et qui me dit

REFRAIN

Je te retrouve, je te retrouve
Tu es les rêves que j'invente
Tu es la musique que je chante
Tu es la force qui me soutient
Je te retrouve, je te retrouve
Tu es les mots que je compose
Tu es les gestes que je pose
Tu es la route qui m'a conduit
D'hier à demain, d'hier à demain

BRIDGE

Tu es ma jeunesse
Tu es mes racines
Tu es mon histoire

DERNIER REFRAIN (DEUXIEME PARTIE SEULEMENT)

Je te retrouve, je te retrouve
Tu es la source qui m'a nourri
Tu es la main qui m'a pétri
Tu es la route qui m'a conduit
D'hier à demain
D'hier à demain

ENGLISH

2nd verse and 2nd refrain

1ST VERSE

When I think of where I come from
Of the road that has led me to who I am
When I think of days gone by
Your name comes to me like a melody
that I want to sing
When I think of all the people
Who have left a piece of blue sky
deep inside of me.

REFRAIN

I remember you, I remember you
You are the source of my dreams
You are the music that I sing
You are the strength that sustains me
I remember you, I remember you
You are the words that I compose
You are the source of my every gesture
You are the road that has lead me
From yesterday to tomorrow
From yesterday to tomorrow

2ND VERSE

**You have made me who I am
Empowered me to seek and learn and understand
You have taught me how to dream
To value hope, to search for truth and honesty
Memories of youth and friends are like a song
That warms my heart and never ends**

REFRAIN

**I hear your name and I remember you
And all the years that have gone by
Cannot erase the sense of pride
That lingers deep within my soul.
I hear your name and I remember you
The words of those who showed the way
Revealed the price we'd have to pay
To build tomorrow from today
And all our dreams will carry on**

BRIDGE

You are my youth
You are my roots
You are my history

LAST REFRAIN

I remember you, I remember you
You are the source that has nourished me
You are the hand that has molded me
You are the road that has led me
From yesterday to tomorrow
From yesterday to tomorrow
