

# FENTANYL OVERDOSE SIGNS AND SYMPTOMS

Call 911 if one or more signs are present.

SLOW OR NO BREATHING

BLUE LIPS AND NAILS

NO MOVEMENT (CANNOT WAKE THEM)

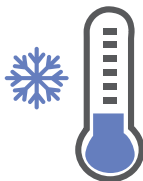

CHOKING OR THROWING UP

GURLING OR SNORING SOUNDS

PUPILS ARE TINY

COLD AND CLAMMY SKIN

SEIZURE

Don't use fentanyl when alone—it is much more toxic than other opioids. Small amounts can result in overdose.
