This form will close at 9 PM (Mountain Time)

Prizes: Three \$50 gift cards

Play: Find the game room that suits you best or try them all.

Drawful (Jackbox Game)

Show off your great or terrible drawing skills in this fun game. Remember, being good at drawing is cool, but being awful at drawing is the most fun.

Get ready to play: Open jackbox.tv on a second device (mobile, tablet) or alongside the Zoom app on your computer. Just make sure you can keep an eye on both screens.

Quiplash (Jackbox Game)

There are no rules or correct answers. You just say whatever you want! Your answer will be pitted against another player's answer in a head-to-head battle. Other players and the audience then vote on their favorite answer. It's that simple.

Fibbage (Jackbox Game)

The point of the game is to make up an answer that seems likely, to trick your fellow players. Every time another player chooses your lie as the answer, you win points. Players earn points if they manage to pick the actual true answer to questions.

A decorative header with a light green background. It features three pixelated alien icons in a dark red color, positioned at the top. The text "VIRTUAL GAME CHILL-OUT" is written in a large, blue, pixelated font across the center.

Chat Room (Main Room)

This is the main Zoom room: take a breath and chill out here. Use the chat function or not. Talk about research, books, television, and whatever else your heart desires.
