## The Faculty of Education

### Historical Overview

In 1942, we became the first Faculty of Education in Canada. We had only one degree program, 12 courses and three full-time professors. Today, however, we are one of the largest Faculties of Education in Canada with nine undergraduate degree programs and a wide array of graduate degrees. With four teaching departments and one school, we employ over 108 full time professors, 50 support staff and 103 full and part-time sessional instructors and we educate more than 2,750 undergraduate students and 800 graduate students.

Over the past eighty years, the Faculty of Education has evolved from a few discipline-oriented courses in Education offered by the Faculty of Arts and Science into one of the largest and strongest Faculties of Education in the country. The first education course, covering both the history and philosophy of education, was approved in 1911 and first offered in 1912. In 1928, the School of Education was created under the administration of the Faculty of Arts and Science. It opened the following year with an enrolment of seven students. The School later evolved into the College of Education; then, in 1942, into the Faculty of Education. In 1945, the Province of Alberta closed its Normal Schools in Calgary and Edmonton and turned control of teacher education over to the University of Alberta. Alberta was the first province in Canada to make teacher education exclusively a university responsibility. Since 1945, the Faculty of Education has awarded more than 45,000 BEd degrees, and developed strong graduate programs

that have provided outstanding educational leaders for institutions and school systems across Canada and around the world. In 1991, the Faculty of Library and Information Studies joined the Faculty of Education and became the School of Library and Information Studies.

## Mission Statement

The Faculty of Education is committed to the discovery and dissemination of knowledge about teaching and learning. We promote the view that to be a professional educator is to continue to question, to reflect, to seek knowledge, and to be open to change and diversity.

## Scholarship, Research and Teaching

The Faculty of Education places a high priority on excellence in teaching, research, and community service. As a focus of excellence in scholarship, research and teaching, the Faculty is consistently ranked among the top three Faculties of Education in Canada and is considered one of the finest in North America. Our researchers provide ground breaking contributions and national/global leadership in many areas.

Education students will encounter many professors who have won distinctions such as the 3M Teaching Award, Library Journal Teaching Award, and Faculty of Education teaching awards. With 12 Rutherford Undergraduate Teaching Awards, our Faculty instructors embody excellence in teaching. The Faculty also employs Field Experience Associates, seconded from local school systems, who have demonstrated their excellence in teaching at the elementary and secondary school levels.

Undergraduate students also have an opportunity to work closely with highly competent classroom teachers during the various components of their student teaching experience.

As might be expected in a leading Faculty of Education containing departments of Educational Psychology, Elementary Education, Educational Policy Studies, and Secondary Education, as well as the School of Library and Information Studies, the research output of Faculty members is both extensive and wide ranging.

## Grants

Faculty members have received top-level research grants from SSHRC, NSERC and CHIR funding agencies and major research awards such as:

- UNESCO Prize for Peace Education
- Whitworth Award for Education Research
- J Gordin Kaplan Award for Excellence in Research
- Killam Annual Professorship
- McCalla Professorship

The Faculty of Education is a leader in service to the educational and broader communities. Many faculty members and graduates devote many hours to professional development, curriculum development, and the production of educational materials for use in the schools. Many graduates have distinguished themselves in areas as diverse as the arts, politics, and public administration as well as in the classroom. Three outstanding exemplars, all of whom have been awarded the Order of Canada, are Myer Horowitz, former Dean of Education and President of the University of Alberta; Steve Ramsanker, principal of an inner-city school who devoted his life to educating the under-privileged; and Thomas Peacocke, one of Canada's most widely acclaimed actors and directors.

Students entering the Faculty of Education will join a community with a strong tradition of teaching and research excellence and dedicated community service.

## Our Graduates

Our graduates are leading the way. More than 60 percent of the elementary and secondary school teachers in Alberta are U of A graduates, 33 have become presidents of universities or colleges and over 25 percent of the current Deans of Education in Canada are alumni of this Faculty.

## Areas of Expertise

The Faculty has expertise in a variety of areas including, Aboriginal populations, counseling psychology, curriculum and pedagogy, educational measurement, literacy, multicultural/international education, libraries and information management, policy development and leadership, and teacher education.

## General Information

The Faculty of Education provides professional preparation for teachers and opportunities for graduate study for those interested in more advanced work in education. Undergraduate degree programs are available in elementary and secondary program routes.

Each Bachelor of Education degree program allows for certification as a teacher in Alberta. Teaching Certificates are granted by the Minister of Education, on the recommendation of the Faculty of Education.

## Graduate Degree Programs in Education

The Faculty of Education offers graduate work for the preparation of teachers, supervisors, guidance counsellors, administrators and other educational specialists, and may lead to the degrees of Master of Education, Doctor of Education or Doctor of Philosophy. Candidates for these advanced degrees choose an area of concentration corresponding to the specialization of a particular department as follows:

**Department of Educational Policy Studies:** adult education; educational administration and leadership; indigenous peoples education; and theoretical, cultural and international studies in education.

To meet candidates' needs and interests, departments permit considerable flexibility in the programs leading to advanced degrees. In general, students pattern their courses from the offerings of the department of their choice, supplemented by approved courses from other departments. Specific requirements for graduate degrees offered by the various departments in the Faculty of Education are found in Faculty of Graduate Studies and Research.

Graduate-level courses in education are offered in Fall/Winter and Spring/Summer.

Students should address their preliminary inquiries to the appropriate Department Chair and, if possible, arrange for an interview.

All candidates for graduate degrees must also be formally admitted to the Faculty of Graduate Studies and Research, which administers graduate degree programs offered by the University of Alberta.

## School of Library and Information Studies

The School of Library and Information Studies offers the Master of Library and Information Studies (MLIS) degree. The MLIS program is accredited by the Committee on Accreditation of the American Library Association. This accreditation is also recognized by the Canadian Library Association.

In preparing for the MLIS program, students should include courses distributed among the social sciences, biological and physical sciences, literature, and other areas of the humanities. Prior library experience can be beneficial.

The minimum requirement for the MLIS degree is either 13 single-term graduate courses and a thesis (thesis route), or 16 single-term graduate courses and a capping exercise (course-based route). Students may enrol in the School on a full-time or part-time basis. Students registered full time will normally be able to complete the degree requirements in two years. There are no residence requirements in the course-based route.

## Faculty Regulations

### Speech Competency

Besides demonstrating overall English language proficiency, students entering the Faculty expecting to complete teacher certification need a further level of spoken English proficiency, regardless of their citizenship status or country of origin. ## BSc (Specialization in Science and Education)/BEd (Secondary) Combined Degrees Program

**Note:** Students in the Bachelor of Science (Specialization in Science and Education)/Bachelor of Education (Secondary) Combined Degrees Program are registered in the Faculty of Science for the first two years of the five-year program. They are registered in the Faculty of Education commencing the beginning of third year.

1. A student in the combined program is not granted the privilege of repeating a failed course more than once during the program except with the permission of the Dean of Education and the Dean of Science. A student is not permitted to repeat a course in which a grade of D or more has been received except with the permission of the Dean of Education and the Dean of Science.
2. Courses with prerequisites may only be used for credit if the prerequisite requirements have been met. A grade of D is the minimum grade acceptable in a course to be used as a prerequisite.
3. Normally, no more than ★42 at the 100-level are permitted in the combined program.
4. A full-time student in the combined program should normally register in ★30 during Fall/Winter of each year of the program.
5. A student may be permitted to complete the requirements for the combined program over a longer period than five years on approval by the Dean of Education and the Dean of Science.

## Field Experience Courses (Student Teaching)

1. Registration in field experience courses is a two-part process. Students must first register in EDFX courses using the Bear Tracks web registration system. Students must then access the Faculty's Online Registration system via the Field Experiences website.
2. Students with documented disabilities that might require accommodation should consult Undergraduate Student Services.
3. Because of the Faculty's commitment to our school partners to ensure that student teachers are able to meet the expectations of full involvement in the school setting, students must not register in any courses additional to those defined as part of the field experience term unless they have received prior approval from the Associate Dean in Undergraduate Student Services.
4. Students are not normally permitted to register in field experience courses while on Academic Warning.
5. A student who has been assigned a grade of "W" or "NC" in any Introductory Field Experience is entitled to a second registration in an Introductory Field Experience. A student who has been assigned a grade of "W" or "NC" in any Advanced Field Experience is entitled to a second registration in an Advanced Field Experience. See also Reregistration in Courses. Notwithstanding Reregistration in Courses, if a student receives a "W" or "NC" in the second attempt of either an Introductory Field Experience or Advanced Field Experience, they will not be allowed to continue in the Faculty of Education. Any student who has been assigned a grade of "W" or "NC" in any Field Experience must receive the approval of the Assistant Dean (Field Experiences) to reregister in the course.
6. Given the unique nature of the Field Experience courses and the complexity of the placement process, students who wish to delete a Field Experience course may do so without restriction only until the University's general add/delete deadline. Students who wish to delete a Field Experience course after the University's general add/delete deadline, but before the Field Experience delete deadline, may normally do so only once; otherwise, the course deletion will be considered a Withdrawal ("W"). After the Field Experience delete deadline, all course deletions will be considered a Withdrawal ("W").
7. The Faculty of Education is committed to a Regional placement program in which students are encouraged to complete field experiences beyond the greater Edmonton area in Alberta. Students who wish to apply for a regional placement must adhere to posted deadlines.
8. Students are expected to access the Field Experiences website before the beginning of their field experiences. The website provides specific information about student teaching and outlines what is expected of student teachers.
9. Students in the Faculty of Education are expected to conduct themselves according to the Alberta Teachers' Association Code of Professional Conduct and the University of Alberta Code of Student Behavior: Conduct and Discipline. During the field experiences Student Teachers shall maintain an ethical and professional attitude toward all members of the school community. The Alberta Teachers' Association Code of Professional Conduct will be a guideline for behavior in the school community. Student Teachers shall recognize and accept that the welfare of the students is of ultimate concern and that the Mentor Teacher has the final responsibility for what occurs in the classroom.  
Students are held accountable to these standards and answerable to the Assistant Dean (Field Experiences) and the Dean of Education.

10. Program match is the most important variable when making placements. When making placements, consideration is given to the proximity of a school to a student's place of residence; however, students can be placed anywhere in the Edmonton Capital Region. Access to transportation is not a determining factor in making placements in the Edmonton area.
11. Field experience courses other than EDFX 476 and EDFX 490 are not normally offered during Spring/Summer.
12. The Assistant Dean (Field Experiences) acting on behalf of the Dean, may immediately deny assignment of a student to, withdraw a student from, or vary terms, conditions or site of a field experience placement if the Assistant Dean (Field Experiences) has reasonable grounds to believe that this is necessary in order to protect the Public Interest. Refer to Practicum Intervention Policy for additional information.

### Important Dates - Field Experiences

1. Students are responsible for being aware of the important dates related to the Field Experience as posted, including delete and withdrawal deadlines.
2. During the Field Experience, students will follow the calendar of the school at which they are placed.

## Student Advising

### Undergraduate Student Services (USS)

USS staff assists with admission, readmission, program requirements, field experiences, and any other issues related to a student's degree or diploma program.

USS maintains the official Faculty record of each student's academic program as well as the student teaching reports. These records are held for three years after graduation.

All queries can initially be handled by USS staff; if necessary, students will be referred to the appropriate University department for a final resolution.

## Academic Standing and Promotional Standards

### BEEd; BEd (After Degree); BA (Native Studies)/BEd Combined Degrees Program; BKin/BEd (Elementary) (Secondary) Combined Degrees Program; BSc in Human Ecology/BEd (Secondary) Combined Degrees Program

1. Academic standing for the Bachelor of Education; Bachelor of Education (After Degree); Bachelor of Arts (Native Studies)/Bachelor of Education Combined Degrees Program; Bachelor of Kinesiology/Bachelor of Education (Elementary) (Secondary) Combined Degrees Program; Bachelor of Science in Human Ecology/Bachelor of Education Combined Degrees Program is assessed based on the Fall/Winter grade point average (GPA). Students are expected to maintain a minimum GPA of 2.0.

See Additional Grades and Remarks and Academic History (Transcript) Records for information on calculation of GPAs and the academic record. The GPA is printed on the official transcript and the Statement of Results issued after each Fall/Winter or Spring/Summer period.

A review of academic performance is conducted for each student at the end of each Fall/Winter (September to April) and Spring/Summer (May to August), covering the previous period's work. If a student has only registered for one term during either Fall/Winter or Spring/Summer then a review will be done on that term.

The assignment and reassignment of categories of academic standing are based on a student's performance in a minimum of ★9. If, at the time of review, the student has attempted fewer than ★9 since the last assignment of a category of academic standing, the review will be deferred and the academic standing assigned at the last review will remain in effect until the next review. The ★9 needed for an academic review is cumulative. Once a student has completed a minimum of ★9, over one or more terms, a review will be done.

2. **Categories of Academic Standing:**

One of three categories of academic standing is determined for each student based on the GPA.

**Satisfactory Standing:** Students with a GPA of 2.0 or greater are considered to be in Satisfactory Standing and may continue in the program.

**Marginal Standing-Academic Warning:** Students with a GPA of 1.7 to 1.9 inclusive are considered to be in Marginal Standing and may be permitted to continue on Academic Warning.

**Unsatisfactory Standing-Required to Withdraw:** Students with a GPA of 1.6 or less, or students who have been assigned Marginal Standing on two occasions (not necessarily consecutively) while registered in the Faculty, are considered to be in Unsatisfactory Standing and are required to withdraw from the Faculty.

## Marginal Standing-Academic Warning

1. A student placed on Academic Warning resulting from Marginal Standing is bound by the following requirements:
  - a. A student must complete ★24 credits with a GPA of 2.0; or complete a minimum of ★21 credits with a GPA of 2.3; or complete a minimum of ★18 credits with a GPA of 2.7; or complete a minimum of ★15 credits with a GPA of 3.0.  
**Note:** Students are **not** required to complete these minimum number of units of course weight in one Fall/Winter.
  - b. A student on Academic Warning must maintain a GPA of at least 2.0 for each full session in which the student is enrolled.
  - c. A minimum of ★9 does not have to be completed for a performance review to be conducted when a student is on Academic Warning. A review will be done after each term on any work done. A minimum GPA of 2.0 must be maintained on all work.
  - d. Registration in a field experience term will not be permitted while on Academic Warning. If special circumstances warrant, permission must be obtained from the Associate Dean Undergraduate Student Services.
  - e. Students are not normally permitted to take courses at another institution while on Academic Warning.
2. **Required to Withdraw**
  - a. Students cannot be placed on Academic Warning more than once during any degree program offered by the Faculty of Education. Therefore, students must maintain Satisfactory standing after clearing Academic Warning.
  - b. Students who fail to meet the standards and requirements of Academic Warning or who are placed on Academic Warning twice during their program will normally be required to withdraw and remain out of the Faculty.

3. **Readmission After Required to Withdraw**
  - a. A student required to withdraw must apply and compete for readmission to the Faculty of Education after completing a minimum of ★24 transferable to the University of Alberta. See Bachelor of Education in Elementary, Secondary, and Adult Education Routes VII.
  - b. Normally, students are to successfully complete the ★24 at another postsecondary institution. Students with a GPA of between 1.3 and 1.6 may be permitted to continue at the University of Alberta in the Fresh Start program to complete the ★24 providing they have not previously been on Academic Warning or Probation, or have been Required to Withdraw, from any postsecondary program. Further detailed information can be found in First- and Second-Year Students with GPAs of 1.3 to 1.6—Admission to Fresh Start Program, Academic Warning, Academic Probation, Required to Withdraw, and Fresh Start Program.
  - c. Students who have been required to withdraw and who, after being readmitted, are again given Academic Warning will be required to withdraw and will not be readmitted to the Faculty.

## Degree of BEd

### Underlying Principles

The following principles underlie all teacher preparation programs:

1. The education of a teacher is a continuous, life-long process. In addition to emphasizing basic or fundamental preparation, the initial pre-service experience should aid the development of attitudes that encourage self-evaluation and improvement, and the acquisition of knowledge and skills that facilitate life-long learning.
2. All teacher preparation degree programs provide intending teachers with essential practical skills, a knowledge of theory and its relationship to practice, liberal studies, and subject-matter competence.
3. The Faculty of Education is committed to providing quality teacher preparation programs and recognizes the importance of continuously monitoring, evaluating and refining its offerings to adequately reflect changes in society and advances in knowledge.
4. The Bachelor of Education degree consists of a minimum of ★120.

### Program Planning

The Faculty of Education provides students with an official program outline when they are admitted. Using this, students are expected to be able to identify remaining course requirements for their particular degree program.

**Students are responsible for being acquainted with all applicable regulations and meeting the requirements for the degree as outlined.** Any exceptions to the requirements must be approved in writing by the Associate Dean (Undergraduate Student Services) with one copy to be placed in the student's file and one to be given to the student.

**Note:** Students enrolled in the Bachelor of Education (After Degree) should consult Bachelor of Education Programs for Holders of Approved Degrees for program details.

## Elementary Education Route

### General Information

The Department of Elementary Education prepares teachers to teach all subjects and to facilitate the learning of all children at the elementary school level within our multicultural society. ## BSc (Specialization in Science and Education)/BEd (Secondary) Combined Degrees Program [Education]

### General Information

The Faculties of Science and Education offer a combined degrees program that is more highly structured than the BSc followed by a BEd After Degree (a six-year route). It provides less flexibility in course choice and scheduling than taking the degrees sequentially, because it is designed to meet the minimum requirements of both degrees in five years. In addition, it must meet teacher certification requirements within this time frame.

Students will select a major and minor from the following choices: (1) Biological Sciences, (2) Mathematical Sciences, (3) Physical Sciences.

Students apply to the Faculty of Science for admission to the Combined Degrees Program and spend the first two years of the five-year program registered in the Faculty of Science. (See Bachelor of Science (Specialization in Science and Education)/Bachelor of Education (Secondary) Combined Degrees and BSc (Specialization in Science and Education)/BEd (Secondary) Combined Degrees Program).
