51 General Information

The Faculty of Arts

The Faculty of Arts is, with the Faculty of Science, the oldest established faculty at the University of Alberta, with instruction in Arts and Science having begun in 1908. It offers instruction in the humanities, the social sciences, and the fine arts.

The Faculty offers a variety of programs leading to the degree of BA (Honors), BA (Criminology), and BA. Regulations governing programs will be found in §§53.14 and 54.

In addition, the Faculty offers specialized degrees in Art and Design (Bachelor of Fine Arts and Bachelor of Design) in Drama (Bachelor of Fine Arts) described in §§53.2 and 53.3, and in Music (Bachelor of Music), described in §53.4.

Faculté Saint-Jean

A number of Arts courses are also offered in French at Faculté Saint-Jean. Faculté Saint-Jean was founded in 1908 and became an integral part of the University in 1970. Faculté Saint-Jean allows students of French extraction to pursue their university studies in a French environment and gives other students the opportunity to benefit from this environment. The University thus hopes to foster French culture in Alberta and to allow more students to master the two official languages of Canada. For further information, consult §§161 to 165 and 211 of this Calendar.

51.1 Important Deadlines

(1) Admission to the Faculty of Arts

Refer to §12.6.

(2) Transfer to the Faculty of Arts from Another Faculty in the University

Refer to §12.6.

First year students who registered in September in another faculty may not transfer for January admission, but may complete an Application for Readmission or On-Campus Transfer form to transfer to the Faculty of Arts for a subsequent session.

Other students transferring at mid-year (January) can be accepted only under special circumstances. Even though formal transfer cannot be approved, changes in program can sometimes be arranged to maximize transferable credits for later use.

(3) Application to Receive a Degree

At Fall Convocation: **September 2**. At Spring Convocation: **February 2**.

(4) Other Important Deadlines

Refer to §11.

52 Faculty Regulations

The regulations of the Faculty of Arts are to be considered in conjunction with the University Regulations and Information for Students §§11 to 27, inclusive, of this Calendar.

52.1 Admission and Transfer

The admission and transfer requirements of the Faculty of Arts will be found in §15.2 of this Calendar. Additional general admission information can be found in §§13 to 14 of this Calendar.

(1) **Preprofessional Programs:** There are no preprofessional programs, as such, in the Faculty of Arts. Students admitted to a Faculty of Arts program who plan to transfer later to a professional program in another faculty must satisfy Faculty of Arts requirements while they are registered in this faculty. Students planning to transfer should consult the Calendar or Counsellors of the relevant faculty for advice concerning courses which satisfy the requirements of both programs.

(2) **Residence requirement:** Students taking a ★120 program in the Faculty of Arts must have credit in at least ★60 offered by the University of Alberta. Students in a ★129 program must have credit in at least ★63 offered by the University of Alberta and those in a ★132 program must have credit in at least ★66 offered by the University of Alberta. Also refer to §23.2 of this Calendar. Also see specific program requirements in §53.

- (3) **Letter of Permission:** Following initial admission, students are expected to complete all requirements at the University of Alberta. However, under academically justifiable special circumstances, students may apply to the Dean for permission to take courses at another institution for application to their program here, provided
- they are degree program students of the Faculty of Arts;
 - they have already completed a minimum of ★24 of their program at the University of Alberta;
 - they present "Satisfactory" academic standing (i.e., a CGPA of 5.0 or greater).
- Approval will **not**, however, be granted for requests where the student has already received the maximum allowable transfer courses (★60). Requests to take a senior course in the student's major subject of concentration will be considered only with the written approval of the Department advisor. Note that there is no obligation to grant transfer credit unless prior permission has been obtained. Qualified students should contact the Student Programs Office, 6th Floor, Humanities Centre, to obtain the necessary forms.
- (4) **Exchange Programs:** For students already admitted to a degree program in the Faculty of Arts who are participating in approved international exchange programs, credit will be considered on a credit-fail (CR-F) basis only. Therefore, grades achieved in such courses will not normally be included in promotion or graduation average calculations unless the students declare prior to participation in the exchange program that they wish these grades to be included. Credit may be granted provided a passing grade is achieved.
- (5) Students who do not hold credit in prerequisite courses, but who feel they have sufficient knowledge, may be permitted registration in a senior-level course upon successful completion of a placement test. For further particulars, contact the department offering the senior-level course. These tests are normally conducted for language courses. Also refer to §§22.1.4 and 52.4(2)e of this Calendar.

52.2 Registration and Changes of Registration

Deadlines are strictly adhered to. See §11 of this Calendar. For further information refer to §22.1 of this Calendar.

- (1) **Student Responsibility:** Students are responsible for familiarizing themselves with program requirements and limitations as specified in the Calendar and for ensuring their programs are properly planned in accordance with degree specifications. Please read the Calendar carefully before registering in courses, and if you are in doubt about any regulations pertaining to your program, please consult the Student Programs Office (6-7 Humanities Centre) for clarification.
- (2) **Failure to "drop" a course:** Students who do not formally withdraw from a course but who are absent from the final examination without excuse (see §23.5.3 of this Calendar) will be given a mark of zero (0) on the final examination. The final grade in the course will then be determined by combining the appropriately weighted term grade and the assigned zero in the final examination, the mathematical result rounded to the lowest whole number. Students who register in a course but do not attend and do not formally withdraw will receive a grade of 1.0.
- Students who withdraw from a course after the deadline date and who thereby receive a grade of withdraw-failing (WF) will receive a grade of 1.0. Also refer to §§23.4 and §52.5 of this Calendar.
- (3) **Course Load Requirement:** Normally, students in the Faculty of Arts take a full course load of ★15 per term during Winter Session and may take up to ★6 per term in Intersession. In exceptional circumstances, and following completion of the first ★30, acceleration to the maximum of ★18 per term during Winter Session and ★9 per term during Intersession may be permitted by the Faculty.

52.3 Classification and Selection of Courses

The courses which are requirements of one program only are listed under the particular degree or certificate program in §§53.1.2–53.5.3 and 54 of this Calendar.

- (1) **Course Definitions**
- Units of Course Weight:** A unit of course weight is an indication of the instructional credit assigned to a course and is designated by the ★ symbol after the course number and name. Units of course weight are used to form a part of the degree requirements and are also used in calculating a student's Grade Point Average (GPA).
 - Full-Session Course:** A full-session course means a course with a unit of course weight of ★6 that normally extends over two consecutive University terms.

- Half-Session Course:** A half-session course means a course with a unit of course weight of ★3 that normally extends over one University term.
- Junior Course:** Effective September 1990, all courses offered by the Faculty of Arts numbered 199 or lower, are junior-level courses. Prior to that, all courses offered by Arts numbered 299 or lower were junior-level courses. For courses in all other faculties, the course numbering in effect in that faculty at the time the course was taken will apply.
- Normal Course Load:** A normal full academic course load is ★30 during the Winter Session.
- Senior Courses:** Those courses numbered 200 to 599.
- Courses Extra to the Degree:** Courses successfully completed while registered in a program in the Faculty of Arts which are not being used for degree credit are known as courses extra to the degree. Such courses are, however, included in the assessment of academic standing (see §52.5).
- Minimum Passing Grade:** The minimum passing grade in undergraduate courses is a 4.0. Effective September 1986, the grade of 3.0 is a failing grade. The regulation in place prior to September 1986, which permitted credit to be conceded, in some instances, for a grade of 3.0 will continue to apply to students of this Faculty for courses completed prior to September 1986. Also refer to §23.4.

(2) Options:

- Arts or Science Options:** The term "option" where it appears in programs, means an Arts or Science course chosen by the student provided the necessary prerequisite requirements have been met. An "approved option" in all programs is an option approved by the department directing the program of the students concerned. Also refer to point b. below.
 - Non-Arts or Science Options** (i.e., courses not offered by the Faculties of Arts or Science): Students registered in programs in the Faculty of Arts will normally select their courses from those offered by the Faculties of Arts or Science, including the Arts and Science courses offered by Faculté Saint-Jean. Students registered in any program other than the BFA or BMus, may take up to ★18 (as options) in Faculties other than Arts and Science. These courses, when taken for credit toward the Arts degree, are subject to the following restrictions:
 - The courses may not be used to satisfy the requirements of a junior English course.
 - The courses may not be used to meet the requirements of a major.
 - Their inclusion in a program is subject to Faculty limitations on the number of junior courses and non-Arts courses that may be offered for credit.
 - The courses must, in each case, carry a minimum unit of course weight of three (★3). Two courses in the same faculty, each with a weight of ★1.5, will be accepted as the equivalent of one course with a weight of ★3.

Students in the BFA or BMus programs should refer to the specific program requirements in §§53.2, 53.3, and 53.4 for regulations regarding Non-Arts or Science options permitted (if any) in those programs.
 - Courses in Christian Theology offered by St Joseph's College and St Stephen's College may be taken as Arts options in all Arts programs.
- (3) **Restricted Enrolment Courses:** The Faculty of Arts strives to accommodate all students wishing to enrol in a given course when it is appropriate to their program. However, classes in some courses must, for academic reasons, be restricted in size. If such a course is found to be oversubscribed, priority in registration will be given to those students whose programs may require it (e.g. majors and/or minors) and then to other students as space permits.
- (4) **Junior Courses:** No more than ★48 may be taken at the junior level except for the BMus program. For that program, the maximum permitted junior level courses are outlined in §53.4.
- (5) **Junior English Requirement:** Normally no more than ★6 in junior English may be offered for credit in an undergraduate program.
- (6) **Major Subjects:** Courses offered in the Department and/or subjects listed below will be accepted by the Faculty of Arts as a major unless otherwise indicated in the "Programs of Study" section of the respective departments (§§54.1 to 54.26): Anthropology; Art and Design (including Art, Art History, Design); Canadian Studies; Chinese; Classics (including Ancient History, Art, Classical Literature in Translation); Comparative Literature; Drama; East Asian Studies; Economics; English; Film Studies;

French, Human Geography; German or German Studies; Greek and Latin; History, Ancient and Medieval History, or Women's History; Japanese; Latin American Studies; Linguistics; Mathematics; Music; Philosophy; Political Science; Psychology; Religious Studies; Russian; Scandinavian; Sociology; Spanish; Ukrainian; Ukrainian Folklore; Women's Studies.

- (7) **Minor Subjects:** Courses offered in the Department and/or subjects listed below will be accepted by the Faculty of Arts as a subject of concentration unless otherwise indicated in the "Program of Study" section of the respective departments (§§54.1 to 54.26): Anthropology; Art and Design (including Art, Art History, and Design); Canadian Studies; Central/East European Studies; Chinese; Classics (including Ancient History, Art, Classical Literature in Translation); Comparative Literature; Drama; East Asian Studies; Economics; English; Film Studies; French; Human Geography; German; Greek and Latin; History, Ancient or Medieval History, or Women's History; Italian; Japanese; Latin American Studies; Linguistics; Mathematics; Music; Native Studies; Philosophy; Political Science; Psychology; Religious Studies; Russian; Scandinavian; Sociology; Spanish; Statistics; Ukrainian; Women's Studies. In addition to the Arts Faculty disciplines noted above, students may also select as their minor in the BA program an area of discipline from the Faculty of Science, as described in §53.1.1(II)(5).

Note: A minor in Hebrew (Biblical Hebrew) may also be offered depending on availability of courses. Interested students should consult the Department Advisor.

52.4 Credit by Special Assessment

Note: See also §14.2.6.

Credit by Special Assessment permits students to receive degree credit in specified courses without actually registering in and taking courses if the student can demonstrate an acceptable level of mastery of the course content.

Students admitted to a degree program in the Faculty of Arts, may receive degree credit in a limited number of courses for knowledge or skill obtained in a non-university context or by private study. "Non-university context" may include work completed at institutions not accredited for degree purposes or may refer to periods of work experience that bear relationship to university courses. The following conditions apply:

(1) Basis of Application

- Students may apply for Credit by Special Assessment on the basis of knowledge gained in a "non-university context" following admission to a degree program.
- Students may apply for Credit by Special Assessment on the basis of knowledge gained in "private study" following the successful completion of a minimum of ★24 in their degree program.

(2) Limitations

- Departments are not required to offer Credit by Special Assessment in all courses. Courses which have a significant practical component, such as laboratory or studio work, or courses requiring substantial writing, may not be eligible for Credit by Special Assessment.
- A maximum of ★12 may be obtained through Credit by Special Assessment, of which no more than ★6 may be in language other than English courses. In the case of language other than English courses, only those numbered 150 or higher are open to Credit by Special Assessment. Where language-other-than English courses at the 300- or 400-level (or higher) have already been completed, a student may not subsequently attempt by Special Assessment any courses at a lower (e.g. 200- or 300-) level.
- Students may attempt Credit by Special Assessment only once in each course.
- The number of attempts to obtain Credit by Special Assessment is restricted to a maximum of ★12. **Note:** This limits the number of courses that may be challenged, regardless of results. Cancelled applications are considered as an attempt to obtain credit and will be included in this maximum.
- Students seeking credit in a prerequisite to a course in which they intend to register must complete the Credit by Special Assessment examination prior to the start of classes in the advanced course. Similarly, in cases where "advance placement" in a prerequisite course has been given, students may also seek Credit by Special Assessment in the prerequisite course, but must also complete the special assessment examination prior to the start of classes in the advanced course.
- Graduate courses and Honors courses (i.e., those open only to Honors students and specified as such in the Calendar) cannot be attempted by Special Assessment.

- Courses which have previously been audited, or in which the student has withdrawn, may not subsequently be attempted by Special Assessment.

- (3) **Deadline for Completion:** The deadline for completion of the examination and assessment is one month from the date of approval of the application for Credit by Special Assessment. Students who fail to complete assessment requirements by the specified deadline will be considered to have cancelled their application.

(4) Grading

- In a course attempted by special assessment the results will be recorded, either as a numeric grade or pass/fail according to the practice in the regular course.
- All grades obtained in attempts by special assessment, including failures, will be recorded on the transcript of the students concerned and will be computed into the student academic record (i.e., academic standing, promotion, and graduation requirements).
- Students may not appeal the results in a course attempted by special assessment.

- (5) **Transfer of "credit by special assessment":** Students who have obtained credits by special assessment (or similar means) while enrolled in another university, college, faculty, or school, will be given advance credit in such courses provided the course is applicable within the requirements and limitations of the Arts program.

- (6) **Fee:** A fee is required for each course in which credit by special assessment is sought, and must be paid before the department concerned undertakes the special assessment. Refer to §22.2 for fee information. **Note:** Amount of this fee is subject to change.

52.5 Academic Standing

Academic Record: Students should be aware that their academic record (transcript) is continuing in nature, and that all matters relating to courses, grades, academic standing, probation, etc., will permanently appear on the academic record.

- (1) Academic standing is assessed on the basis of a cumulative grade point average (CGPA). Students are expected to maintain a 5.0 minimum CGPA. Students who do not maintain this level of academic performance may be permitted to continue under academic warning or may be required to withdraw.

A review of academic performance is conducted for each student at the end of each session.

The assignment and reassignment of academic standing is based on students' performance in a minimum of ★9. If, at the time of review, students have attempted fewer than ★9 since the last assignment of a category of academic standing, the review is deferred and the academic standing assigned at the last review remains in effect until the next review.

(2) Terms Used in Assessing Academic Standing

- Grade Point Average (GPA):** Grade point average (GPA) is a sessional measure of academic performance. Rules for the computation of the GPA are listed in §23.4(7).
- Cumulative Grade Point Average (CGPA):** The cumulative grade point average (CGPA) is a measure of academic performance obtained by computing a grade point average for all sessions attended in the Faculty of Arts since Spring 1989, using the computational rules in §23.4(7).
The GPA is printed on the University transcript. Both averages, the GPA and CGPA, are printed on the Statement of Results at the end of each session.
- Categories of Academic Standing:** There are three categories of academic standing which are determined for each student on the basis of the CGPA:
 - Satisfactory Standing: a CGPA of 5.0 and above.
 - Marginal Standing: a CGPA between 4.5 and 4.9 inclusive.
 - Unsatisfactory Standing: a CGPA of 4.4 and below.

(3) Application of Academic Standing

- Satisfactory Standing (CGPA 5.0 and above):** Students who maintain a satisfactory standing are permitted to continue their studies in the Faculty of Arts subject to meeting the specific requirements of their degree program and the general requirements of the University of Alberta.
- Marginal Standing (CGPA 4.5 to 4.9 inclusive):** Students receiving the first assessment of marginal standing are permitted to continue, under academic warning, until the next assignment of academic standing in order to raise the CGPA to 5.0 or higher, provided their

specific degree requirements and the general requirements of the University of Alberta are also met. At the time of the next assignment of academic standing, such students

- 1) who raise their CGPA to at least 5.0 may continue their studies with satisfactory standing.
- 2) whose CGPA is less than 5.0 and whose average on the courses taken since the last review is less than 5.0 will be required to withdraw.
- 3) whose CGPA is less than 5.0 but who have, during the period since the last review, achieved an average of at least 5.0 on all courses attempted, will be permitted to continue under academic warning. Continuation over subsequent review periods will be permitted until the CGPA is raised to at least 5.0, as long as the 5.0 average is maintained in each subsequent review period.

Note: Students under academic warning are only permitted to interrupt their programs with the prior, written approval of the Associate Dean, Academic Programs and Undergraduate Students. If students on academic warning interrupt their programs for more than 12 months without prior approval, readmission will normally not be granted unless the student meets the current readmission criteria.

- c. **Unsatisfactory Standing (CGPA 4.4 and below):** Students receiving an unsatisfactory standing are required to withdraw from the Faculty of Arts.

Students who are required to withdraw from the Faculty at the end of the Winter Session cannot register for the following Intersession. Students who register for Summer term of Intersession prior to the requirement to withdraw will have their registration cancelled without penalty. Those students who have already registered in Spring term of Intersession prior to receiving notification of the requirement to withdraw will be permitted to continue until the end of Spring term, or may choose to withdraw from those Intersession courses.

- (4) **Readmission After a Requirement to Withdraw:** Refer to §15.2.10 for information.
- (5) **Extension to the Graduating Year:** Students who have successfully completed at least ★120 but who do not meet program requirements for graduation, and who are otherwise eligible to continue in their program of study, may continue to register in subsequent sessions until graduation requirements are met. Students who have completed at least ★120 but who are in Unsatisfactory Academic Standing (i.e., "Required to Withdraw"), may appeal to be allowed to complete on further Winter Session of study in order to meet graduation requirements (see §52.8). If graduation requirements are not met within the session, such students will be required to withdraw, and will not be readmitted.

52.6 Reexamination

See §23.5.5.

52.7 Graduation

- (1) **Application:** Students wishing to receive a Faculty of Arts degree at an upcoming convocation must obtain an Application for Degree form from the Faculty Office and submit it in accordance with the deadlines specified in §11 of this Calendar. Also see §23.7.
- (2) **Degree Requirements:** These requirements vary from program to program within the Faculty of Arts, and are therefore given, together with the details of the relevant program, in §§53 and 54 of this Calendar.
- (3) **Degrees With Distinction and First Class Honors:** For regulations concerning the awarding of degrees With Distinction, see the requirements for the particular degree program set out in §53 of this Calendar. For regulations concerning the awarding of First Class Honors to students graduating with a Bachelor of Arts degree with Honors, see §53.1.5(III)(2). of this Calendar.

52.8 Appeals

Students who wish to appeal a ruling affecting their academic standing or graduation eligibility should direct their appeal in the first instance to the

Associate Dean for Academic Programs and Undergraduate Students. Recourse is then available to the Faculty of Arts Academic Appeals Committee and the General Faculties Council Academic Appeals Committee, in that order. Further information on such appeals is available in §23.8 of this Calendar.

Appeals regarding students' standing in a particular course should first be directed to the instructor concerned. Frequently the issue can be resolved at this level. If not, the appeal may then be addressed to the Chair of the Department in which the course is being offered. Final recourse is available to the Faculty of Arts Executive Committee which acts at the Faculty's Academic Appeals Committee. If a final grade is in dispute in whole or in part because of the grade for the final examination, the student should apply for a formal reappraisal of the exam. See §23.5.4(2) of this Calendar for reappraisal deadlines. Note that the same deadlines apply for initiating a grade appeal with the instructor, i.e., February 2 for first-term Winter Session courses, June 25 for second-term or full-session Winter Session courses, or within 30 days of the publication of results for courses offered in Intersession (i.e., within 30 days after the grades are posted in the Department).

Copies of grade appeal and academic appeal procedures and regulations are available from the Student Programs Office, Faculty of Arts.

52.9 Academic Offences

A breach of the Code of Student Behavior, for example plagiarism or cheating, may result in penalties being imposed. For further information refer to §26 of this Calendar.

53 Programs of Study

53.1 The Degrees of BA

53.1.1 The Degree of BA (Degree Code AR20)

I. The BA Degree

The BA Degree is designed to provide students with a diversified education and specialization in at least one subject.

- (1) **Residence Requirement:** The BA degree is a program of ★120 of which
 - a. a minimum of ★66 must be in courses offered by the Faculty of Arts;
 - b. ★60 must be in courses taken at the University of Alberta; and
 - c. a minimum of ★30 must be taken while registered as a student in the Faculty of Arts.
 - d. a minimum of ★6 must be taken in courses offered by the Faculty of Science.
- (2) **Course load requirements:** Students will normally complete ★30 in each academic session and will normally complete the program in four academic calendar years.

II. Program Requirements

The BA degree requires students to successfully complete ★120 including the following:

- the core program (★42)
 - a Canadian Content Coordinate course
 - a major subject of concentration
 - a minor subject of concentration
- (1) **First Year:** Each year consists of ★30 credited to the program. Within the first ★30 students are strongly advised to complete junior courses from the core program including ENGL 101.
To prepare for the Major, students should enrol if possible in a course in the Major Subject in first year. Students are also encouraged to obtain required prerequisite courses early in the program. Students in the BA degree should seek advice and program approval from the advisor in the Department of their major concentration.
 - (2) **Core Program Requirements:** (See Arts Chart 1.)

53.1.1(II)(2) Core Program Requirements for BA Degree (AR20)

★42 The Core Requirements are designed to give the foundations of a Liberal Arts education, and students are strongly advised to complete the Core in the first two years of their program.

Note: Courses used to meet one core requirement cannot be used to meet another core requirement. However, courses used to satisfy a core requirement may be used to satisfy the Canadian Content requirement (if listed in Arts Chart 2). Senior-level courses in the area of major or minor which meet a core requirement will also be counted towards the major or minor requirements.

- (4) **Major Subject:** Students are required to have a major consisting of a minimum of ★30 to a maximum of ★48 at the senior level. The maximum units of course weight specified may not be exceeded (i.e., additional courses in the subject of concentration may not be taken as options). At least ★6 must be at the 400-level; some departments may require more than ★6 at the 400-level.

Senior level courses in the major subject taken as part of the core program requirements or to satisfy the Canadian Content requirement must also be counted toward the major.

Students must declare their major to the Student Programs Office following the accumulation of the 60th unit of course weight of their BA program.

See below for the special conditions applying only to Language Majors taking two languages other than English in the same department.

The Faculty of Arts will accept courses and/or subjects listed in §52.3(6) as a major.

Approved subject combinations are found in the department listings in §54 of this Calendar and advice is available from the respective department advisors.

- (5) **Minor:** Students are required to have a minor consisting of a minimum of ★12 to a maximum of ★42 at the senior level in an approved subject outside the major. At least ★6 must be at the 300- or 400-level as specified by the department; some departments require 400-level courses. The maximum units of course weight may not be exceeded (i.e., additional courses in the minor may not be taken as options). Senior-level courses in the minor, taken as part of the core program requirements or to satisfy the Canadian Content requirement, must also be counted toward the minor.

The Faculty of Arts will accept courses and/or subjects listed in §52.3(7) as a minor.

In addition to the Arts Faculty disciplines noted in §52.3(7), students may also select as their minor an area or discipline from the Faculty of Science, as described below. Students must meet the minor requirements of the Faculty of Science (as detailed in §172.1.3(3)) as well as those of the Faculty of Arts; therefore, the requirements are a minimum of ★24 to a maximum of ★36 in the minor subject(s), with no more than ★12 at the junior level and at least ★6 at the 300- or 400-level. A Science minor may consist of Science courses taken from a single department or it may consist of courses within an area of concentration, as follows:

Departments (courses from a single department)

Biological Sciences
Chemistry
Earth and Atmospheric Sciences
Physics

Areas of Concentration (courses from those listed for the area)

Biological Sciences (as specified in §172.3.6.)

Biochemistry	Genetics	Pharmacology
Biology	Microbiology	Physiology
Botany	Palaeontology	Zoology
Entomology		

Physical Sciences

Astronomy	Chemistry	Mathematical Physics
Biochemistry	Geophysics	Physics

Mathematical Sciences

Applied Probability	Mathematics	Statistics
Computing Science		

Earth Sciences

Geophysics	Palaeontology
------------	---------------

Students with a major in the Department of Earth and Atmospheric Sciences are not permitted to complete a minor in the same department as their major.

- (6) **Cross-listed Courses:** Courses listed in more than one program are known as cross-listed courses.

The use of "cross-listed" courses is especially common in interdisciplinary programs (Canadian Studies, East Asian Studies, Film Studies, Native Studies, Women's Studies) which use courses from a number of different departments. It also implies that a cross-listed course taken in a particular department may be applied either to a major or minor in the discipline of that department or toward a major or minor in an interdisciplinary program. However, certain restrictions apply with respect to cross-listed courses when a major or minor in a departmental discipline is combined with an interdisciplinary major or minor. When this occurs, the cross-listed courses will be applied to the departmental discipline and students will be required to select another course toward their interdisciplinary subject. For example, a student with a major in Political Science and a minor in Canadian Studies is not permitted to apply Political Science courses to the Canadian Studies minor. Similarly, a student with a major in Women's Studies and a

minor in History is not permitted to apply courses in History to the major in Women's Studies.

For further details on cross-listed courses, refer to the entries for interdisciplinary programs §§54.1 through 54.26.

- (7) **Junior Courses:** No more than ★48 at the junior level are permitted for credit to the program. Students are strongly advised to complete ★30 at the junior level before registering in senior-level courses.
- (8) **Double Majors in Languages Other Than English:** Double majors are not generally offered in the BA program. The only exceptions are specified languages other than English in which students may select two related languages which can be combined as their major subject, a valid minor subject is also still required. The following double language majors are offered: Greek and Latin, Chinese and Japanese, German and Scandinavian, French and Italian, French and Spanish, Italian and Spanish, Russian and Polish, Russian and Ukrainian, Ukrainian and Polish. The following conditions apply to such double majors:
- Students selecting a double language major should take two languages other than English in the first year, deferring another Core Requirement other than ENGL 101 in order to do so.
 - Students majoring in two languages other than English must take a minimum of ★12 at the senior level in each language and normally must include a minimum of ★3 in each language at the 400-level. In all other respects the requirements for a major as outlined in §53.1.1(4) will apply.
- (9) **Non-Arts or Science Options:** A maximum of ★18 may be taken outside the Faculties of Arts and Science as long as they do not duplicate courses already offered by these two Faculties (see §52.3(2)). Certain courses offered by the School of Native Studies may be counted as Arts courses (see §§52.3(2) and 54.17).
- (10) **Interdisciplinary (INT D) Courses:** Unless otherwise indicated in the course description, an INT D course may be applied toward either the major or the minor if it appears under the department's course listings in §211.
- Note:** Normally, a maximum of ★3 at the 400-level in INT D may be applied toward the minor requirement, unless otherwise specified by the Department.

III. Academic Performance

- (1) **Academic Performance for Graduation:** Students must present credit (with a minimum grade of 4.0 or equivalent) in ★120, which satisfy program requirements, present a graduation average of at least 5.0; and present 'Satisfactory' Academic Standing. The graduation average is the quotient of (a) the total number of grade points earned by students in courses credited to the degree, and (b) the total weight of those courses. (Also refer to Academic Standing regulations which are described in §52.5.) In the case of students who attempted, as part of the program, courses at an institution for which the grades are not precisely equivalent to those of the University of Alberta, the degree will be awarded at the discretion of the Faculty of Arts.
- (2) **Degree With Distinction:** Degrees With Distinction shall be awarded to students who achieve an average of at least 7.5 or better on the last ★60 of their programs completed at the University of Alberta including failed courses but excluding any courses not credited to the degree.

53.1.2 The Degree of BA (Canadian Studies) (Degree Code AR13)

The Bachelor of Arts (Canadian Studies) program was discontinued effective Winter Session 1995/96. New students will not be accepted into this program. Students with an interest in this area may pursue Canadian Studies as a major within the BA (AR 20) program. Refer to §54.3.3 for details.

Students already enrolled in the BA (Canadian Studies) degree program prior to September 1995, may continue to meet the degree requirements in effect at the time of admission to the program, provided the program is not interrupted. Promotion and graduation requirements for this program will be as specified in the 1994/95 Calendar. All degree requirements must be met no later than April 30, 1998.

53.1.3 The Degree of BA (East Asian Studies) (Degree Code AR16)

Students already enrolled in the BA (East Asian Studies) degree program prior to September 1995, may continue to meet the degree requirements in effect at the time of admission to the program, provided the program is not interrupted. Promotion and graduation requirements for this program will be as specified in the 1994/95 Calendar. All degree requirements must be met no later than April 30, 1998.

53.1.4 The Degree of BA (Criminology) (Degree Code AR15)

- (1) **Admission requirements:** See §15.2.3.
- (2) **Program Focus:** This quota program, based in the Department of Sociology, is designed to coordinate several disciplines for the purpose of providing a more thorough analysis of the causes of criminal behavior and the variety of social responses to such conduct. It is a program of ★120, with Sociology as the principal subject of concentration. The second subject of concentration is composed of a combination of approved courses from the Departments of Anthropology, Economics, Educational Psychology, History, Native Studies, Philosophy, Political Science, and Psychology. The program is designed for students with career interests in the criminal justice system and includes two field placements for supervised work experience.
- (3) **Registration**
 - a. Criminology students are required to consult with the Program Director to review proposed coursework prior to registration for each academic year and in advance of any changes to approved registration.
 - b. Students initially admitted into the AR20 program or transferring from other faculties or other postsecondary institutions effective Winter Session 1988 must successfully complete the ★42 core program of the AR20 program as part of the ★120 requirement for the AR15 program.
 - c. Normally students are expected to enrol on a full-time basis (★30 per year), although exceptions may be considered and approved by the Program Director.
 - d. Students must obtain permission of the Director in advance if they wish to interrupt their program but retain their status in the BA (Criminology) program.
- (4) **Curriculum**
 - a. Students seeking admission to Criminology are strongly advised to include ENGL 101, SOC 100, PSYCO 104 and 105, and a language other than English in the first year of their postsecondary program.
 - b. **Subjects of concentration:** The principal subject is Sociology in which a minimum of ★30 is required; a maximum of ★48 is permitted. The following Sociology courses must be included in the program: 100 or 300, 225, 327, 399, 499; any three of the following: 321, 420, 421, 422, 423, 424, 425, 426, 428, 429. The second subject is composed of a multidisciplinary combination of courses and requires a minimum of ★27 to a maximum of ★39. No more than ★18 from any second subject department is allowed. The following courses must be included in the program: EDPY 442; PSYCO 104 and 105; any two of the following: PSYCO 223, 233, 281, 339, 435; any four of the following: ANTHR 255; ECON 350; HIST 364, 372; INT D 394; NS 210, 211; PHIL 382, 473; POL S 222, 328, 425, 426, 451.
 - c. Other coursework required to reach ★120 is made up of options and non-Arts and Science options.
 - d. The final two years of the program must include the successful completion of SOC 399 and 499. These courses are required as part of the principal subject of concentration and will involve supervised work experience in relevant settings. Students must obtain a minimum grade of 6.0 in each component of SOC 399 and 499 or repeat the entire course.
- (5) **Promotion:** To be promoted in each academic year students will be required to have
 - a. maintained a full-course load of ★30 unless permission was granted in advance for a reduced course load;
 - b. attained a minimum grade point average of 6.0;
 - c. attained a minimum grade of 6.0 in SOC 399 and 499 as required during the final two years of the program; and
 - d. been recommended by the Department of Sociology
- (6) **Non-promotion**
 - a. Failure to be promoted for academic reasons is cause for removal from the program.
 - b. Affected students may transfer to another program in the Faculty provided the admission requirements of such a program are met.

All other requirements for the new program must be completed after transferring.

(7) Academic Performance

- a. Academic Performance for Graduation: To qualify for a BA (Criminology), students must have completed all program requirements, achieved a minimum GPA of 6.0 in each academic year of the program and be recommended by the Department of Sociology.
- b. Degrees With Distinction: See §53.1.1(III)(2).

53.1.5 The Degree of BA (Honors) (Degree Code AR07)

I. The BA Honors Degree

The BA Honors degree is designed to provide specialization in the chosen subject(s), with study in greater depth than is provided in the BA program, and demands a higher standard of performance.

- (1) **Residence Requirement:** The BA Honors degree is a program which normally requires a minimum of ★120 (some departments may require more) of which
 - a. a minimum of ★66 must be in courses offered by the Faculty of Arts.
 - b. a minimum of ★60 must be in courses taken at the University of Alberta.
 - c. a minimum of ★30 must be completed while registered in the honors degree program.
- (2) **Course Load Requirements:** Honors programs will usually be completed in four consecutive years of study during Winter Sessions. Students in an Honors program are normally required to complete a minimum of ★30 each Winter Session. However, with the prior approval of the Honors Advisor, a reduced course load may be permitted in extenuating circumstances, provided that a minimum course load of at least ★9 per term in each Winter Session is completed, unless otherwise noted in §§54.1 through 54.26. Advisors must notify the Faculty Office in all such cases. Requests to be permitted to continue in Honors while completing a course load of less than ★9 per term in a Winter Session may be considered by the Honors Executive Committee in exceptional circumstances; however, students will not normally be permitted to continue in an Honors program if less than ★9 per term in the Winter Session are completed. All degree requirements must normally be completed within five academic years of commencing the program.

II. Program Requirements

The BA Honors degree requires the successful completion of ★120 (or more if specified by the department). In each year, Honors students' programs, and every change of registration, must be approved by the Departmental Advisor signifying the approval of the Department.

- (1) **Common Requirements of all Honors Programs**
 - a. English 101 or equivalent;
 - b. ★6 in a language other than English;
 - c. ★3 chosen from the Humanities;
 - d. ★3 chosen from the Social Sciences;
 - e. ★3 chosen from the Fine Arts;
 - f. a further ★3 chosen from the Humanities, Social Sciences, or Fine Arts;
 - g. ★6 in Natural Science or Formal Studies;
 - h. ★6 from the approved list of Canadian Content courses for the BA degree.

Notes

- (1) It is recommended that courses chosen to meet these requirements be selected from the core requirements lists for the BA degree (see §53.1.1(II)).
- (2) The Humanities requirement is not satisfied by English 101 or the language other than English, but may be satisfied by subsequent courses in these areas.
- (3) Courses in the "Social Context of Science and Technology" are **not** applicable toward the Natural Science or Formal Studies requirement noted above in point (g).
- (2) **Junior Courses:** No more than ★48 at the junior level are permitted for credit in the program.
- (3) **Non-Arts or Science Courses:** A maximum of ★18 in Non-Arts or Science courses may be taken outside the Faculties of Arts or Science, as long as they do not duplicate courses already offered by these two Faculties.
- (4) **Requirements in the Major Subject:** An Honors program in a single discipline will normally require a minimum of ★48 in the major subject, as defined by the Department. A minimum of ★6 must be at the

400-level; however, some departments may require more than this. Normally, no more than ★60 may be presented in the major subject unless otherwise specified by the Department. Where a maximum has been specified, it may not be exceeded (i.e., additional courses in the subject of concentration may not be taken as options).

- (5) **Requirements in Combined Honors:** For Combined Honors programs, the minimum number of courses in each subject of concentration will be decided through consultation with the Departments concerned in planning the total program; however, a minimum of ★36 at the junior and senior level in each discipline will be required in all Combined Honors programs. At least ★30 in each discipline must be at the senior level. More than this may be required in some disciplines in order to meet specific program requirements. Further information on the requirements of a particular program may be found in the appropriate Department Calendar statement in §54.

Students should be aware that a Combined Honors program may not qualify them for direct admission to a graduate program in one of the disciplines. Further coursework in one of the disciplines may be required in preparation for Graduate Studies.

- (6) **Minor Subject:** Most Honors programs do not have a minor subject requirement; however, where a minor subject or related subjects are required, these will be specified in the individual department requirements in §§54.1 through 54.26. Those programs which do not require a minor normally do permit some options.
- (7) **Honors Essay:** Some departments require the completion of an Honors Essay in addition to specific course requirements. In the case of Combined Honors programs, students may be required to complete an Honors Essay in one or both disciplines depending on specific departmental requirements. Where both departments require an Honors Essay, students will complete one for each department, or may upon special request, be permitted to write a Combined Essay INT D 520 which will meet the requirements of both departments. Students should refer to the specific department entries in §54 to determine which departments offer combined honors programs and require the completion of an Honors Essay. Where a Combined Essay is permitted, this will be noted in the Department Calendar entry, and in such cases the following conditions will apply:
- A combined essay is applicable only to students in combined honors programs.
 - It is applicable only when both departments require an essay and only when both departments agree to a combined essay.
 - The combined essay INT D 520 will meet the essay requirements of both departments.
 - The combined essay will be supervised by, and graded jointly by, the cooperating departments, a single final grade will be submitted.
 - The essay will address the subject matter in both departments equally and in a way that emphasizes the interaction between the two disciplines.
- (8) **Cooperative Work Option Within Honors Programs:** Cooperative education is based on the principle that, for some students, periods of appropriate employment outside the University, when integrated with their academic studies, enhance the benefits that students obtain from their academic programs. The work should be of a type that students can reasonably hope to obtain after they graduate, or suitably related to the content of their academic programs. Cooperative work experience will be wholly additional to and not a substitute for academic courses; it is perceived as a valuable enrichment for some students but not as an alternative to normal course work. Accordingly, the existing requirement for ★120 will be maintained, with a no-credit course number for the evaluation of a report or project resulting from the work experience.
- Admission Requirements:** See §15.2.
 - Program Selection:** Two forms of cooperative work are available:
 - Full-time employment for a period of not less than three months and not more than one year; such periods, integrated into the normal academic program, are referred to as “work terms.”
 - Part-time employment equivalent in working hours to no less than ★3; such employment is referred to as a “work assignment.”
 - Registration:** Work terms and work assignments must be approved in advance by the Department concerned and the Dean’s office. Retroactive approval will not be granted.
 - Withdrawal:** Students may withdraw from a cooperative program on completion of a work term or work assignment, or at any time during a normal academic term, and may continue in the academic Honors program of their department without penalty, provided that

the requirements of these programs have been met. Further information may be obtained from departments offering such programs.

III. Promotion and Graduation

- (1) **Promotion Requirements:** Promotion from year to year and successful completion of the final year in Honors requires a minimum grade point average of 6.5 on all courses taken during the academic session and the recommendation of the department concerned whose required grade point average for promotion may exceed the Faculty minimum. Where an individual department’s requirements vary from the Faculty minimum, this will be specified in each individual department entry in §54.

- (2) **Graduation Requirements:** In most departments, graduation with Honors requires a graduation average of at least 6.5 with an average of at least 7.0 in all courses in the major subject, however, individual Department recommendations for graduation with Honors may exceed these minimum Faculty requirements. Where an individual department’s requirements vary from the Faculty minimum, this will be specified in each individual department entry in §54. In order to be eligible to graduate, students must also meet the final year promotion requirements as specified in point (1) above. The graduation average is the quotient of a) the total number of grade points earned by students in courses credited to the degree, and b) the total weight of those courses.

Graduation with First Class Honors: Departments shall choose one of the following options as their policy for determining First Class Honors:

- a minimum average of 8.0 on all senior-level courses in the major, and an average of at least 7.5 on all courses in the final year. The final year shall be defined as the last ★30.
 - a minimum average of 8.0 on all courses in the two final years in the major and an average of at least 7.5 in all courses in the two final years. The two final years shall be defined as the last ★60. Refer to Departmental entries in §§54.1 through 54.26.
- (3) Students who fail to attain the standard necessary to continue in Honors will be required to withdraw from Honors but may transfer to another program in the Faculty provided they meet the requirements for that program. After such transfer they must complete all requirements for their new program.
- (4) Students who are not recommended for graduation with Honors at the end of their fourth year (i.e., after successfully completing ★120) may be granted the BA degree, provided they have successfully completed ★120 which include ENGL 101; ★6 from each of the core areas for the BA; the Canadian Content coordinate requirement, and the required minor subject for the BA (see §53.1.1). In no case shall more than ★60 in the major subject be counted as part of the required ★120. Students deficient in any respect may be required to take one or more courses in a subsequent session.

53.2 The Degree of Bachelor of Design

53.2.1 The Degree of Bachelor of Design (Degree Code AR08)

I. General Information

The Department of Art and Design offers a variety of programs leading to the degree of Bachelor of Design. Five routes are available within the Bachelor of Design program: The General Route, the Printmaking Route, the Business/Marketing Route, the Engineering/Business/Marketing Route, and the Computing Science Route. The General Route and the Printmaking Route require ★123 to complete the programs and allow the student to take a wide variety of options. The Business/Marketing Route requires ★126. The Engineering/Business/Marketing Route and the Computing Science Route require ★129 to complete the respective programs and allow for courses taken in other Faculties and in the Fine Arts Division to complement specialization in Design.

The required courses in the various routes as well as the recommended sequencing are detailed in the chart below. Departmental approval is required for all courses selected to fulfill unspecified requirements or options.

53.2.3 Program Regulations

(1) **Admission requirements:** See §15.2.4.(2) **Promotion**

- Promotion to each year is by recommendation of the Department for which a grade point average of at least 6.0 is normally required.
- A grade of 4.0 in a central subject may normally be allowed only once in a BDes student's program. Any subsequent ★3 or ★6 in which a grade of 4.0 is received must be repeated for BDes credit, or an alternative ★3 or ★6, approved by the Department, must be substituted.

III. Promotion: All Routes

- (1) To be eligible to continue in the program, students will normally be required to have a minimum cumulative grade point average of 5.5. The cumulative grade point average will be calculated on all courses taken in all sessions completed in the program.
- (2) Successful completion of the program requirements includes a cumulative grade point average of 5.5 on all courses completed in the program.
- (3) Students are normally required to complete at least ★33 during each Winter Session (with the exception of the fourth year of the Performance route in which ★30 will be taken). A reduced course load to ★24 does not require departmental approval beyond the normal means of signing a withdrawal form, but a course load of less than ★24 requires Faculty approval based on departmental recommendation.
- (4) Students who fail to meet the requirements for promotion as outlined in (a) above will be required to withdraw from the BMus program. Such students may transfer to another program in the Faculty of Arts or in another Faculty, provided the entrance and promotion requirements for such a program are met. After transfer, all requirements for the new program must be met.
- (5) Students who fail to meet the fourth-year requirements in the program will be permitted to fulfil those requirements only with the approval of the Dean of Arts upon the recommendation of the Department. Otherwise, students must withdraw from the program and, if so desired, transfer to another program in the Faculty of Arts for which they are able to meet entrance and promotion requirements.
- (6) A BMus program may be interrupted only with the prior consent of the Department and continuation will be subject to any conditions, including reauditioning and new program requirements, that may be specified by the Department.

IV. Residence Requirement

the promotion, final year and residence requirements, and have received the recommendation of the Department.

- (2) Degrees With Distinction shall be awarded to students who achieve a grade point average of 7.5 or more, both on all of the units of course weight credited to the program and on all of the units of course weight in Music. In the case that transfer or other students have attempted, as part of their program, courses at another institution, the Degree "With Distinction" will be awarded at the discretion of the Faculty.

53.5 After Degree Programs**53.5.1 The BA After Another Undergraduate Degree (other than Bachelor of Arts)**

Applicants having a first undergraduate degree other than a Bachelor of Arts may be admitted to the BA After Degree programs. All requirements for the degree, as detailed in §53.1.1 must be met. The total number of required units of course weight in the After Degree program will vary depending on the previous degree held and the BA program sought; however, a minimum of ★60 will always be required. In some cases, more than ★60 may be required depending on the number and applicability of Arts and Science courses completed as part of the first degree.

I. Residency Requirements

- (1) A minimum of ★66 must be in courses offered by the Faculty of Arts, including courses in Arts disciplines taken as part of the first degree, as well as those completed as part of the After Degree program.
- (2) A minimum of ★60 must be completed at the University of Alberta.
- (3) At least ★30 must be completed while registered as a student in the Faculty of Arts.

Notes

- (1) Any deficiency in a matriculation requirement or a prerequisite to a program requirement must be cleared prior to admission to the degree program.
- (2) Courses in other Faculties (Non-Arts or Science Options) open to students in the BA program (§§52.3(2) and 53.1.1(II)(9)) are not permitted for credit in a BA after a previous degree.
- (3) The major or minor selected in the After Degree program may be in disciplines already included in the first degree if they are an approved subject for a major (as specified in §52.3(6)) or minor (as specified in §§52.3(7) or 53.1.1(II)(5)) provided that no more than ★30 at the senior level have already been completed in the discipline in question. Where ★30 or less in the discipline have been completed, those disciplines may be designated as a major or minor and it is expected that additional courses will be taken in

those subjects to the maximum allowed as part of the After Degree program. Where more than ★30 have already been completed in a discipline, that subject may not be selected as a major or minor for the BA after a previous degree. (Also see point (4) below.)

- (4) Students who wish to pursue additional studies in a discipline which cannot be selected as a major or minor may apply for admission as a Special Student (see §15.2.14) or to a BA Honors After Degree Program (see §53.5.2) provided the academic admission requirements for those programs are met. Alternatively, these areas may be pursued as options in a BA After Degree program to the extent possible within the requirements of the program.
- (5) Students applying to a third undergraduate degree will receive no reduction in the units of course weight requirements.

II. Academic Performance for Graduation

Academic Standing regulations are described in §52.5. In the case of students who attempted, as part of the program, courses at an institution for which the grades are not precisely the equivalent to those of the University of Alberta, the degree will be awarded at the discretion of the Faculty.

III. Graduation "With Distinction"

Degrees "With Distinction" shall be awarded in an After Degree program to students who achieve a grade point average of 7.5 or more, both on all units of course weight credited to the After Degree program, and on all units of course weight in the major subject of concentration credited to the After Degree program. 53.5.2 The BA (Honors) After Another Undergraduate Degree

I. General Information

Requirements of a BA (Honors) degree after another undergraduate degree will vary depending on the previous degree held and the Honors degree sought. No more than ★48 at the junior level may be recognized and/or credited toward the requirements of the Honors After Degree program. In all cases, minimum admission and promotion requirements must be met (see §15.2 and §53.1.5) and departmental recommendation and Faculty approval for admission must be secured. All core program requirements and all specified departmental requirements must be fulfilled, either through courses recognized from the first degree, or through courses taken as part of the After Degree program. - (2) Courses outside the Faculties of Arts or Science are not normally permitted in a BA Honors after a previous degree.
- (3) The major subject of concentration may be the same as in the first degree provided it is an Arts subject. However, where a department has indicated a maximum on the total units of course weight permitted in the major, courses in that subject taken as part of the first degree will be included in this maximum; however, depending on the remaining requirements for the program, not all courses in the major subject will necessarily be recognized from the previous program if doing so will exceed the maximum permitted.
- (4) Students applying to a third undergraduate degree will receive no reduction in the course weight requirements.

- (5) The course requirements in an After Degree program are subject to the approval of the Associate Dean (Academic Programs and Undergraduate Students).

54.5.2 Combined Honors in Comparative Literature

Students may pursue a Combined Honors program in Comparative Literature and another discipline. A Combined Honors program is particularly suitable for students who wish to specialize in interrelation studies, for instance, literature and fine arts or music, or English and the international study of the theory of literature. However, students should be aware that a Combined Honors program may not directly qualify students for admission

to a graduate program in Comparative Literature; additional work in a language other than English may be required.

The common requirements in a Combined Honors program are the same as for other Honors programs (refer to §53.1.5).

A Combined Honors degree in Comparative Literature and another discipline requires a minimum of ★39 at the junior and senior levels in Comparative Literature and a minimum of ★36 in the other discipline. An equal number of units of course weight in each department is normally required, and course selection must conform to Honors requirements in the respective Departments. Requirements in Comparative Literature follow:

- (1) either C LIT 100 (★6) or C LIT 201/202; (★3/★3);
- (2) C LIT 499 (★3) Honors Tutorial and Essay is normally required. However, with the advisors' approval, this may be waived if the student is completing an Honors Tutorial/Essay in the other Department. If C LIT 499 is waived, it must be replaced with ★3 at the senior level in C LIT.
- (3) a further ★30 in Comparative Literature as approved by the advisor; of these at least ★6 must be at the 400-level.

Promotion and Graduation Requirements

In a combined Honors program, students are required to meet the promotion and graduation standards of each discipline. The requirements in Comparative Literature are outlined in §54.5.1.

54.5.3 Major and Minor in Comparative Literature

The Degree of BA

See §53.1.1.

In order to fulfil the minimum Faculty concentration requirements, students will normally take C LIT 100 in the first year to prepare for the major, ★6 in Comparative Literature at the senior level in the second year, ★12 in Comparative Literature at the senior level in the third year, and ★12 in Comparative Literature at the 400-level in the final year.

Students who do not prepare for the major in the first year will normally take C LIT 201/202 in the second year, ★12 in Comparative Literature at the senior level in the third year, and ★18 in Comparative Literature at the senior level (★12 of which must be at the 400-level) in the final year.

A maximum of ★6 of F ST 200, 205, 311, 312, 313 and 314 are acceptable toward a major in Comparative Literature (see §211 for F ST courses). See §53.1.1(II)(6) for regulations applicable to cross-listed courses.

Comparative Literature as a Minor

See §53.1.1(II)(5).

Cross-Listed Courses in Comparative Literature:

UKR 414 (★3)

54.6 Drama

54.6.1 Honors in Drama

Students planning to apply for admission to the Honors program should consult §15.2.2 for admission requirements.

See §53.1.5 for Faculty regulations concerning the Honors program.

The Honors program offers the exceptional student an opportunity for intensive study in Drama. Since the performed play is the object of exploration, knowledge of dramatic literature, theatre and aesthetics is as essential as familiarity with the creative process of theatre art. The program is, therefore, flexible enough to embrace both components. Students are encouraged to participate in departmental productions.

Honors in Drama requires a minimum of ★48, maximum of ★70 in Drama (at the junior and senior levels) including DRAMA 102/150, 353, 379/391, 508 and 509; and the following Honors core courses: DRAMA 304, 408, 409, and 505 (Tutorial and Essay) which, under the supervision of a member of the Department, will be commenced in the spring of the third year and continued throughout the fourth. The Honors seminars, DRAMA 405 and 503, are required in addition to normal course requirements. The Honors program in Drama does not have a minor requirement. Due to the nature of the Honors in Drama program, a combined honors program in Drama is not normally offered.

Note: The following courses have been approved for cross-listing as applicable to the Honors program in Drama (see §53.1.1(II)(6)): JAPAN 416, SCAND 353 and 354.

Promotion Requirements

Promotion from year to year requires a minimum GPA of 6.5 with a grade of 7.0 or better in the Honors core Drama courses and the Honors seminars.

Graduation Requirements

Graduation with Honors in Drama requires a graduation average of at least 6.5 with an average of at least 7.0 in all Drama courses. Graduation with First Class Honors requires a minimum average of at least 8.0 on all

Drama courses in the last two years and an average of 7.5 or better on all courses in the two final years (last ★60).

54.6.2 Major and Minor in Drama

The Degree of BA

See §53.1.1.

Drama as a Major

The minimum Faculty requirement for a major concentration is ★6 at the 400-level. However, students wishing to concentrate in Drama are required to complete an additional ★6 at the 400-level to fulfil the departmental requirement.

A major in Drama requires DRAMA 102 and 150 as foundation courses which should be taken in the first year and which fulfil the requirements for a Fine Arts Core Requirement. At the senior level, the Department requires a minimum of ★30 and a maximum of ★48 (at least ★12 of which must be at the 400-level or above). The program requires core courses in Theatre History (DRAMA 304), Acting (DRAMA 353), and Production (DRAMA 379 and 391). All of these courses (★18) should be taken in the second year, with completion of BA core requirements in the third year. Further courses are available in acting, design, directing, improvisation, oral communication, playwriting, technical theatre, theatre history, and youth drama. Students may select Drama options to obtain broad exposure to theatre, or may focus on specific areas of interest.

The sequential nature of the BA (Drama) program requires careful planning of third- and fourth-year choices. As students must obtain prior consent from the Department of Drama each year to register in certain BA Drama courses, students are directed to consult with a BA Drama Advisor as early as possible in their program to obtain assistance in making their course selections.

Drama as a Minor

See §53.1.1(II)(5).

A minor in Drama requires at least ★12 at the senior level, of which ★6 must be at the 400-level. Students are advised that most 400-level Drama courses have specific prerequisites, and need consent from the Department. Students interested in a minor in Drama are advised to take DRAMA 102 and 149 as their Fine Arts Core Requirement, and obtain registration approval from the Department prior to registration in any Drama course.

Note: The following courses have been approved for cross-listing as applicable to a major or minor in Drama (see §53.1.1(II)(6)): JAPAN 416, SCAND 353, and SCAND 354. If these courses are in the same subject area as the student's other area of specialization, they will apply only to the requirements in that discipline and other courses must be selected to meet the requirements in Drama.

For the degree of BFA in Drama, see §53.3.2.

54.7 East Asian Studies

54.7.1 Honors in East Asian Studies

Students planning to apply for admission to the Honors program should consult §15.2.2 for admission requirements.

- (1) A program of study in either Chinese or Japanese which will consist of a minimum of ★48 (at the junior and senior level) in one of the two languages.
- (2) A program of study which will consist of a combination of Chinese and Japanese including a minimum of ★36 in one of the two languages and a minimum of ★12 in the other.

In each of the programs listed above, the maximum number of units of course weight to be taken in either discipline of the Department is ★60.

These programs do not require the completion of an Honors Essay.

Promotion Requirements

Promotion from year to year requires a minimum GPA of 6.5 with an average of at least 7.0 on all departmental courses.

Graduation Requirements

Graduation with Honors in East Asian Studies requires a graduation average of at least 6.5 with an average of at least 7.0 in all departmental courses. Graduation with First Class Honors requires an average of at least 8.0 on all departmental courses taken in the last two years and an average of 7.5 or better on all courses in the two final years (last ★60).

54.7.2 Combined Honors in East Asian Studies

Two Combined Honors programs are offered by the Department of East Asian Studies. The common requirements in these Combined Honors programs are the same as for other Honors programs (refer to §53.1.5).

Combined Honors programs offered:

- (1) A Combined Honors program in either Chinese or Japanese and one other discipline. A minimum of ★36 will be required in each discipline. Required in Chinese or Japanese are at least ★30 at the senior level and at least ★6 must be at the 400-level. A maximum of ★60 in either Chinese or Japanese is permitted.

A maximum of ★60 in either discipline is permitted.

These programs do not require the completion of an Honors Essay.

Promotion and Graduation Requirements

In a Combined Honors program, students are required to meet the promotion and graduation standards of each Department. The requirements in East Asian Studies are outlined in §54.7.1 above.

54.7.3 Major and Minor in Chinese, Japanese, or East Asian Studies

The Degree of BA

Students with a background in one of the languages should consult with the Department before making course selections. All prospective students are asked to contact the Department for information, advice, and program planning. Students intending to major in Chinese or Japanese are strongly advised to begin with the intensive route in first year (i.e., CHINA or JAPAN 100.)

(1) See §53.1.1.

(2) Major Requirements

- a. A major in either Chinese or Japanese requires a minimum of ★30 to a maximum of ★48 at the senior level in the language chosen, which must include a minimum of ★6 in Literature in translation, and a minimum of ★6 at the 400-level in language.

Notes

- (1) For Chinese majors, CHINA 341 and 342 are required.
- (2) Students majoring in Chinese or Japanese who also select East Asian Studies as a minor, may not count any courses in the language toward the East Asian Studies minor; they will count only toward the major.
- b. A combined major in Chinese and Japanese requires a minimum of ★30 to a maximum ★48 at the senior level in the two languages combined, which must include a minimum of ★12 at the senior level in each language; a minimum of ★6 in Literature in translation; and a minimum of ★6 at the 400-level, normally consisting of ★3 at the 400-level in each language.

- a minimum of ★6 in cross-listed East Asian Content courses at the 400-level.

Notes

- (1) The list of approved cross-listed East Asian Content courses is available from the Department of East Asian Studies.
- (2) Cross-listed courses may not overlap with the student's minor subject. (See §53.1.1(II)(6)). For example, if a minor of Political Science is selected, none of the cross-listed Political Science courses may be counted toward the East Asian Studies major; they will be counted only toward the minor in Political Science. Cross-listed courses from other departments must be selected to apply toward the East Asian Studies major. The only exception is if the minor is either Japanese or Chinese (see point 3(a) below).

(3) Minor Requirements

- a. A minor in Chinese or Japanese requires a minimum of ★12 to a maximum of ★42 at the senior level in one of Chinese or Japanese, and must include a minimum of ★6 at the 300- or 400-level and at least ★6 in language courses at the senior level.

Note: If the major subject is East Asian Studies, and the minor is in the same language as that used to fulfil the language

54.8 Economics

54.8.1 Honors in Economics

Students planning to apply for admission to the Honors program should consult §15.2.2 for admission requirements. See §53.1.5 for Faculty regulations concerning the Honors program.

Honors in Economics requires a minimum of ★54 and a maximum of ★60 in Economics (at the junior and senior levels). The Department offers two alternative routes or sets of course requirements to obtain Honors in Economics. One route includes advanced training in econometrics and mathematical economics, and is appropriate for students contemplating continuing their studies in economics at the graduate level. The other also leads to a specialized degree in economics and requires completion of an honors essay; it is more appropriate for students with different career objectives or contemplating studies in related disciplines after graduation. Students should consult the Department advisor in order to determine which route to select. Requirements for the two alternatives follow:

Honors Route for Graduate Study in Economics

ECON 101/102; MATH 113 (or 114 or 117); MATH 120 (or 127); ECON 281/282; STAT 141 and ECON 299 (or STAT 265/266); ECON 384/385; 386/387; 407/408; and 481/482. (ECON 407/408 and ECON 481/482 should be taken in Year 4).

Honors Essay Route

ECON 101/102; MATH 113 (or 114 or 117); MATH 120 (or 127); ECON 281/282; STAT 141 and ECON 299 (or STAT 265/266); ECON 384/385; 386, 399, and 400 (Honors Essay); at least one of ECON 441, 482, 485 or 422; at least one of ECON 421, 431, 453, 455, 471, 472, or 481; and at least one of ECON 410, 412, 414, or 418.

This program does not have a minor.

Additional courses in mathematics, especially MATH 115 and 121, statistics, and computing science are recommended as options. ECON 401/402 are also highly recommended.

Promotion Requirements

Promotion from year to year requires a GPA of at least 6.5 with an average of at least 7.0 in all Economics courses.

Graduation Requirements

Graduation with Honors in Economics requires a graduation average of at least 6.5 with an average of at least 7.0 in all Economics courses. Graduation with First Class Honors requires an average of at least 8.0 on all senior level Economics courses and a GPA of 7.5 or better on all courses in the final year (last ★30).

54.8.2 Combined Honors Programs

Students may also pursue a combined program in Economics and another discipline. The common requirements in a Combined Honors program are the same as for other Honors programs (see §53.1.5).

A Combined Honors program in Economics and another discipline requires a minimum of ★36 (at the junior and senior levels) in Economics and a minimum of ★36 in the other discipline. Requirements in Economics for all Combined Honors programs in Economics except Economics and Mathematics are the same as listed in §54.8.1 above.

Required courses in a Combined Honors program in Economics and Mathematics are ECON 101/102, MATH 117/118, 127; ECON 281/282; MATH 217/317, 227; STAT 265/266; ECON 384/385, 481/482, 407/408. Students in the Combined Honors program in Economics and Mathematics may not receive credit for ECON 386/387, and are advised to select further mathematics courses from among MATH 270, 271, 336, 372, 373, 417, 472, 486, and 487.

Each Combined Honors program must have the approval of the Department of Economics and the other discipline. Economics does not require an Honors Essay.

Promotion and Graduation Requirements

In a Combined Honors program, students are required to meet the promotion and graduation standards of each department. Requirements in Economics are outlined in §54.8.1.

54.8.3 Major and Minor in Economics

The Degree of BA

See §53.1.1.

For students majoring in Economics, the following courses are required: ECON 101/102, MATH 113 or equivalent, STAT 141 or equivalent, ECON 299, ECON 281/282 and ECON 384/385, and either ECON 399 or ECON 407/408.

Notes

- (1) In order to have the greatest possible flexibility in their choice of the 300- and 400-level courses required to complete a concentration in Economics, students are advised to complete **all** the departmental requirements listed above earlier rather than later in their programs. In particular, it is highly desirable that students complete the ECON 101/102, MATH 113, STAT 141, ECON 299 and ECON 281/282 requirements as part of their first ★60. Students are urged to take MATH 113 as soon as possible, preferably in their first year.
- (2) Students who have taken STAT 255 are not required to take ECON 299.
- (3) Completion of MATH 113, STAT 141, and ECON 299 fulfils ★9 of the ★12 in Natural Science, Formal Studies, and Science and Technology core requirements.

For students taking Economics as a minor, the following courses are required: ECON 101, 102, 281 and ★9 at the 200-level or above, of which at least ★6 must be at the 300-level or above. Also see §53.1.1(II)(5).

If students majoring in Economics select Mathematics as their second subject, it is recommended that they include MATH 113/115, MATH 120/121, and MATH 214/215 in the courses they select. For advice on other courses at the 300- or 400-level, students may wish to consult an advisor in the Department of Economics.

If students majoring in Economics select Statistics as their minor, it is recommended that they include STAT 265/266 and one of STAT 361 and 377 in the courses they select. For advice on other courses at the 300- or 400-level, students may wish to consult an advisor in the Department of Economics.

Students should be aware that a Combined Honors program may not qualify them for admission to a graduate program in Creative Writing.

54.9.4 Major and Minor in English

The Degree of BA

See §53.1.1.

Students wishing to major in English are required to take a minimum of ★30 and up to a maximum of ★48 at the 200-level or above, including ★9 at the 400-level. The major will include at least ★12 in English literature before 1800 (ENGL courses numbered 220-249, 320-349, 385, 390, 420-449 always meet this requirement; in any given year, certain other 400-level courses may also meet it; please consult the Department).

Unless otherwise stated, the prerequisites for 400-level courses are as follows

ENGL 100 or 101 (prerequisite to all senior courses)

★12 in senior English courses, ★6 or which must be at the 300-level

Notes

- (1) Certain 300- and 400-level courses have specific 200-level and/or 300-level prerequisites.
- (2) It is strongly recommended that English majors take ★6 in Shakespeare.
- (3) It is strongly recommended that English majors take ★12 at the 400-level, even though only ★9 are required.
- (4) WRITE courses are considered as English courses in the requirements for the major (i.e., are included in the minimum and maximum); however, no more than ★15 may be taken in WRITE courses.

Students taking English as a major or as a minor are strongly recommended to consult with the Department Undergraduate Programs Advisor on their choice of courses. This is of crucial importance in entering third year.

The major in English is **not** designed to meet specific requirements for entrance into graduate programs in the Department of English; students desiring such preparation should consult the Graduate Committee Chair before enrolling in the third year of the BA program.

Subject to Faculty regulations, students can therefore study up to three Scandinavian languages and their literature and culture in a BA (Scandinavian).

Students have to meet all pertinent Faculty regulations at their home university and the host institution. They should therefore seek early Departmental and Faculty permission when considering participation in the program. A list of courses approved for transfer of credit is available from the Department of Germanic Languages and the Faculty. Students should be aware that, while the cooperating departments will make every effort to offer all courses as proposed for a given academic year, they reserve the right of cancellation at any time up to the commencement of classes, should unforeseen circumstances occur.

In selecting courses in "Subject Area Studies" students must observe two conditions: first, in one subfield they must complete ★6; second, the courses they select must not have regional area equivalencies to the regional fields of concentration they are presenting in the area of the Honors essay, in their second field of concentration and in their third field. Listed below are the "subfields" in Subject Area Studies together with the courses in these "subfields." The regional area equivalencies of these courses are self-evident and may be confirmed with the Honors Advisor in History.

- (1) External/International Relations History
HIST 298, 299, 338, 355, 363, 387, 403, 404, 405, 419, 458, 477.

- (3) Comparative History
HIST 494.

A maximum of ★60 in History (including junior courses) may be presented. A minimum of ★6 must be at the 400-level. Normally, students should take courses in two additional fields to provide them with the breadth intended in the History Honors Program. In certain circumstances, courses in ancient history offered by the Department of Classics are accepted as the equivalent of history department courses. Approval of the Honors Advisor is required in such cases and when used in this manner, these courses will be included in the minimum and maximum permitted. An historiography seminar, HIST 500, is required during the third year, while registration in HIST 501 allows for completion of the Honors essay required during the fourth year. Students prepare the Honors essay under the supervision of a member of the Department. The Department may require any student, in addition to submitting the essay, to pass an oral or written examination on the subject of the essay. At least ★12 are required in each of the areas of the Honors essay and a second field. Students must satisfy the Department of their ability to read a language other than English. Examinations for that purpose are conducted by the Department and normally are written during the second or third year. They must, in any case, be written and passed for completion of the degree. Honors history students who already have ★6 in a language other than English at the senior level will be exempt from the language exam. Those students with ★6 at the junior level will not be exempt from the language exam. This program does not have a minor requirement.

Promotion Requirements

Promotion from year to year requires a GPA of at least 6.5 with an average of at least 7.0 in all History courses in the session.

54.20.4 Cooperative Education (Work Experience) Route

The Cooperative Education (Work Experience) Route provides students who have completed their third year of study in the Department of Psychology, and who present a Cumulative Grade Point Average of at least 5.5, an opportunity for extended, paid work experience. The program lasts for 12 or 16 months, and after completing the reporting requirements, a student can receive university credit for the experience.

A student must successfully complete WKEXP 961, 962, 963 and PSYCO 411, and the final year of their academic program to graduate with the Cooperative Education (Work Experience) Route designation. Students are not permitted to register in any academic courses during the periods of work experience, but are considered to be full-time students at the University of Alberta for the periods in which they are enrolled in WKEXP courses.

Student participation in the program is voluntary; however, it is not possible to guarantee that all students wishing to participate are able to do so, as participation is dependent on the availability of suitable work placements. The Department will make every effort to assist in finding suitable employment for those students wishing to take part in the program, but ultimately the responsibility for obtaining suitable employment rests with the student who wishes to participate.

Students choosing to participate should also be aware that participation in the program may result in difficulties in selecting courses for their program, as the Department may not have the flexibility to offer desired courses in terms suitable to all students. If particular courses are required or strongly desired, students must plan work terms around the availability of such courses.

Following is the normal sequence of required courses in the cooperative education route:

Year	Term	Course	Weight	Grade
